Police officers with batons surround and restrain a protester who had joined in an occupation of the British Home Stores in Dublin in support of hunger strikers in Belfast's Maze prison.

Luns Says NATO Soon Will Announce Date for Talks With Russia on Missiles

ROME - It is highly likely that the North Atlantic Treaty Organization will soon announce plans to start nuclear missile reduction talks with the Soviet Union, Jo-seph Luns, the NATO secretary-general, said Sunday.

Mr. Luns said an announcement of a date for such talks could be made at a two-day meeting of 15 NATO foreign ministers that begins Monday in Rome. He said. lowever, that the date more likely would be announced after a meeting of defense ministers in Brussels next week.

Practically all nations of the alliance wish the resumption of talks as soon as possible, and f assure you the U.S. government is very it has never been ratified. Mr. aware of this," Mr. Luns said at a Meese said that Mr. Reagan, who

Carter administration was constrained in the development of the system by the terms of SALT-2, but that the Reagan administration, would not be. Mr. Carter withdrew the SALTagreement from the Senate, and

opposed the agreement, does not to abide by it. But he added, "We may not do anything that's inconsistent with that just because it's in our best interest to go forward."

U.S. Under Pressure

The United States has been under pressure from West Germany, the Netherlands, Britain, Italy and other countries to open negotiations with the Soviet Union to reduce the number of medium-range nuclear missiles in Europe.

The West German government, in particular, has been anxious for a sign from Washington that the European talks will begin, and the Reagan administration appear anxious not to put Chancellor Helmut Schmidt in political jeopardy with left-wing forces in his own party by not showing some move

toward these negotiations.

When NATO agreed in 1979 to base 572 Cruise and Pershing-2 missiles in Western Europe beginning in 1983, it also promised to negotiate. And West European governments, faced by anti-nuclear

journalists who would question them on television, but Mr. Giscard d'Estaing had wanted a direct

World Health Agency to Weigh Code on Baby Food

By Axel Krause International Herold Tribune

GENEVA - The 34th World Health Assembly, convening Monday, faces a controversial proposal for member governments to implement an international code aimed at curbing the marketing of breast-milk substi-The annual assembly consti-

tutes the principal policy-making organ of the World Health Organization (WHO). Delegates from 157 nations will routinely debate and act on approximately 40 agenda items, including next year's WHO budget. The notable exception to the

routine is item 23, on baby food. "As usual, there will be plenty of talking and voting, but this year, the baby food story is creating all the excitement," a senior WHO official said Friday.

Determined Effort

Last week in Geneva and Washington, lobbying was intensifying as key protagonists -WHO, key member govern-ments, U.S. and West European food industries and a coaliuon of 35 consumer and religious groups - mounted a determined effort to influence the outcome of the final vote, scheduled for

May 21. Whatever results from the lobbying the code now has over-whelming support among the vast majority of both developing and industrialized nations in WHO, and it is expected to be adopted by the assembly.

Echoing a view widely held among UN ambassadors, a sen-ior Western delegate predicted the proposal would be approved "handsomely." He said that Prime Minister Indira Gandhi of India was among the delegates expected to urge its adoption, possibly in her speech on Wednesday to the gathering in the Patais des Nations.

Virtually all other nations in Asia, Latin America and Africa were also expected to vote in favor of the code, along with Britain, Canada, Norway and Swe-

But if even a small group of other industrialized nations, particularly the United States, vote against the code - a possibility no one is ruling out - it would represent a substantial blow to

the influence and prestige of the

UN agency.
In recent years, WHO has prided itself on what officials term "unanimous consensus" among members on almost all major world health issues. A negative or abstaining vote would clearly be a blow to that tradition, officials said,

"Our effectiveness is built on such consensus, on this issue and others; we always try for agreement among all those interested before the final vote," said David Tejada, assistant director-general of WHO and an architect of the 21-page draft code. "In this sense and others, we

are totally unlike other UN agencies," be said Friday during an interview in his office overlooking Lake Geneva.

Support Solicited

During the past few weeks, Mr. Tejada, a former deputy health minister in Peru, has been actively soliciting support on both sides of the Atlantic for adoption of the proposed code. "We want to pacify the climate and arrive at that consensus," he

A crucial problem for WHO planners is that the United States, under the Carter administration, raised several objections to the code that are shared in varying degrees by Japan and several other industrialized na-

"While no one objects to promoting breast-feeding and child nutrition, which is the underlying reason for the code, the issues involved are far more complex than usually portrayed," said a senior official in Washington who preferred not to have his name or agency identified. Echoing the views of others in

the Reagan administration, the offical said that the objections were based on fears that certain provisions in the code, such as those banning advertising and promotion of infant formulas, "raised questions of free speech."

He added that Washington also was concerned about precedents the code might set for other areas, such as drugs and tobacco. This administration is

clearly against regulations," he

ed Sunday that a key member of the U.S. delegation attending the assembly, John H. Bryant, deputy assistant secretary for international health in the Health and Human Services Department, had strongly urged the Reagan administration to endorse the

[According to a six-page memorandum obtained by the newspaper, he reported "particularly strong feelings among European and developing countries thal any weakening of the code is unacceptable." The memo was sent to Secretary Richard S. Schweiker a month ago, but he did not act on it. The Post said.

consultations last week, no final U.S. position on the issue had been determined even as delegates began arriving in Geneva on Sunday, officials in Washington and Geneva said. "The U.S. Congress, on both sides, remains divided also," an administration strategist said.

According to knowledgeable government and WHO officials, the outcome probably will depend on whether clarifications meeting U.S. objections prove acceptable to other member gov-ernments and can be incorporated into the final version of the

groundwork for such a compromise was already being laid. No Legal Force

"At this point we cannot and

will not change the actual language in the recommendation or the code, but governments can make other changes in or additions to the proposal that could remove objections, including provisions regarding its precedent, scope and voluntary nature." Mr. Tejada said. He added that such "clarifications," assuming they are adopted by the assembly, would then become WHO policy.
"A lot will depend on what

goes on in the cloakrooms, when the hard bargaining gets under way in coming days," a senior UN ambassador suid Friday. Meantime, there were equally

that without anybody wanting it, there may suddenly be war." Almost since the partition that

created their two countries. Indians and Pakisianis have been ready to think the worst of each other. That India had nuclear ahilnotice if the government of Prime ity and that Pakistan was acrively Minister Indira Gandhi decided 10 seeking it has been known for several years. With the history of con-"We have to be prepared for any situation." Mrs. Gandhi said last unresolved and potentially incen-

diary issue, India and Pakisian have often regarded each other as belligerents waiting for the right moment in sirike.

It was this reasoning that led a group of political scientists and nuclear monitors in the United States to conclude that the greatest risk of nuclear confrontation in the world was in this region and not in the Washington-Moscow standoff. And yet, until this spring, the Indi-ans showed remarkably little alarm at the reports of Pakistan's devel-

two years away from the testing What seems to bave stirred Indian anxieties much more than Pakistan's nuclear effort is the eager-ness of the Reagan administration to arm Pakistan as a bulwark

against any Soviet penetration in and around the Gulf. With the administration moving in Congress to change existing legislation so that U.S. military aid may go in Pakistan despite its nu-clear activities, the Indians are

that Westerners describe as being

Arms Proposal

High officials in the Indian For-eign Ministry refuse to accept the proposed Pakistani-American arms agreement as a mirror image of India's own \$1.9-billion arms deal with the Soviet Union. Instead, they take the view that the military government in Pakistan, once afforded protection by the United States and gaining tolerance and legitimacy for its nuclear program, could easily turn to militarist adventures.

It is also an undenied fact that despite the Soviet intervention in Afghanistan and the threat it represents to Pakistan's western bor-der, Islamabad still deploys seveneighths of its forces toward India.

In reflecting the general appre-hension in India, Mrs. Gandhi summarized the situation with calculated amhiguity. "There is no question of trying to compete with Pakistan in an arms race," she said. "We have never complained about Pakistan being armed. Our only worry is that such arms supply is creating a situation where everybody is drifting toward a

Because of a holiday, Tuesday's editions of the International Herald Tribune will not he distributed in the United Kingdom. Distribu-tion elsewhere will not be affected.

Beginning today, the newspaper is increasing its availability early in the morning in the Irish Republic through special air delivery to the nonaligned movement taging Dublin and distribution from there that the region be a "zone of to other major cities.

said.
"At our meeting, we shall be seeking ways to ensure that [the code] is adopted and legislated by the governments," she added, had no plans to lift the consumer boycott against products of Switzerland's Nestle, the world's largest food company.

The boycott was started by Infact in the United States in 1977, The Geneva group said it had now been extended to eight other countries, including Sweden. "We shall continue as long as Nestle does not modify its policies," Mrs. Allain

The International Council of Infant Food Industries, representing 14 leading companies, including Nestle and Weyeth International of the United States, still considers the code in its present form "restrictive, detailed ... unworkable and contrary to national interests," according to a brochure its participants distribute to inquiring visi-tors.

"We oppose the universal code "We oppose the universal code and some believe it is a sign that the UN system is moving to conbahwe's workers should be representationals," said Stanislas Flache, who retired as an assistant director-general of WHO last year become the Geneva-based general secretary and spokesman for the industry group. The group has regularly pointed out that it drew up its own voluntary code in 1975 and claims that this measure has proved effective.

"In our code and our encourage ment of national codes, we have always supported breast-feeding and avoided or tried to correct charges of malpractices," Mr. Flache said, stating that a dozen countries already have codes. These include Malaysia and Singapore, while Kenya and Nigeria either have or are preparing codes. "We find these acceptable," he said, "but the question now is: Will they become

Marchers Protest Reagan Policies The Associated Press

WASHINGTON — An estimated 25,000 demonstrators marched to the Pentagon on Sunday to protest U.S. involvement in El Salva-dor and President Reagan's proposed cuts in domestic social programs.

But it may he too little, too late. The disarmament lohby contends that NATO — and particularly the United States — has perverted

weapons politically without ever having an intention of reducing the number of warheads, This disillusionment with arms control is one of several points on

which the European peace move-ment offers a mirror image of hawkish U.S. views.

Both the European disarmament movement and Reagan administration ideology — forged alike in the same describrating East-West cli-mate — believe that superpower consultations proved a sham, leav-ing the East-West deadlock frozen. They agree that arms control at-SOWETO, South Africa - Outspoken black Bishop Desmond Tutu, tempts in the 1970s failed to pro-

Window of Danger

Bishop Tutu, general secretary of the militantly anti-apartheid South African Council of Churches, spoke to a congregation at St. Augustine's Anglican Church in this sprawling black township after being inducted "We had a time of grace; 10 years in which to achieve an Eastas rector. His passport was seized after he called for economic pressure West breakthrough, and we failed," a Dutch clergyman said. "There is a great deal of injustice and oppression in this country," he said. "We must work with God for the destruction of this evil system. Disarmers worry about an imminent "window of danger" (which We need to tell those who don't already believe it that nothing will stop has its analogy in Reagan thetoric) requiring what one called "our informed action in the next couple of years to save European civiliza-

> The disarmers see war fast approaching because of the new nuclear weapons and strategy planned for Europe. More sophisticated Western weapons, the protesters contend, will feed Kremlin paranoia and lower the threshold of nuclear war. Because the arms are small and increasingly accurate, disarmers say, they are more likely to be used.

There is a growing feeling in the U.S. that a nuclear war could be limited to Europe," said Gene R. La Rocque, a retired U.S. rear admiral. "Some in the U.S. believe that even after a nuclear war starts in Europe, the U.S. and Soviet presidents could agree by hot line not to attack each other's some

Even a limited nuclear war in Europe's crowded spaces, disarmers say, would annihilate Europe, wreaking such national havoc that no recognizable society could re-

Diplomats, both U.S. and Euroan, dismiss the conspiratorial view of NATO's nuclear plans, arguing that the new missiles — ca-pable of hitting the Soviet Union from Europe — are intended to keep Europe tightly tied to the main U.S. nuclear force, thus pro-**Anglican Bishops Call for Disarmament** tecting Europe from Soviet intimi-

duce stability, particularly in Europe. And they share a sense of urope. And they share a sense of urope. And they share a sense of uropeans acknowledge a trend, still marginal, appears ment. Neutralism is reviving in Nordic countries. Welfare states want business-as-usual. Smaller NATO countries feel powerless to affect alliance de-

Soviet Power

The rise of Soviet power may lead some Europeans to rationalize a feeling of helplessness by arguing that, after all, the Soviet Union has no aggressive intentions in Europe.

Most disarmers, rejecting the la-bel of neutralist, acknowledge that they want to be nonaligned. "We" got tied to one superpower in an earlier era when it looked like there was a real Soviet threal to Europe," said Robert Neild, a former director of the Swedish Inter-"L'ional Peace Research Institute. He added: "Now, when the threat has moved away, Europe could be the battlefield for the dinosaurs to settle their differences."

It is an article of faith with European disarmers that Europe is intrinsically the most stable East-West from But they fear that U.S. Soviet conflict elsewhere for example, in the Gulf - could trigger nuclear exchanges that spread to Europe.

They are thus interested in trying to remove nuclear weapons from Western European countries in the hope of establishing nuclearfree zones, eventually including Western Russia.

Disarmers Worried

Despite this nominal evenhandedness, disarmers appear more worried by their own countries than by the Soviet Union.

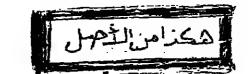

"What alarmed me was the combination of moves, all aimed at making nuclear war more think-able," Prof. Thompson said.

Western defense experts point out that NATO's striking power must be awesome and credible if it is to forestall war. But disarmers see it differently. Britain's attempt last year to revive civil defense, for example, caused an outery in antinuclear movements.

They object in principle to civil defense, which they say would effectively protect political and military leaders, not ordinary citizens, yet at the same time make nuclear war more thinkable for the public.

A British civil defense manual A British civil defense manual titled "Protect and Survive" gave a case to Prof. Thompson for his own-brilliantly polemical pamphlet, "Protest and Survive," which argues that protest has become the only effective form of civil defense.

it became gospel for the Europe-an Nuclear Disarmament movement, the umbrella organization for a spreading network of national protest groups.

President Reagan's economic pro-posals and lobbying tactics.

"We've got the president of the
United States a little bit on the
nm," Speaker Thomas P. O'Neill
Ir., a Massachusetts Democrat,
said. "The American people, despite the president's charm and
charisms and wonderful ability at
a microphone, are suddenly begina microphone, are suddenly begin-ning to realize the effects of his budget cuts."

In a rare personal jibe, Rep. O'Neill said that Mr. Reagan called Vice President Bush into a

meeting Friday with Republican legislators to discuss the budget because he had to have someone Explain it for him." Rep. Jim Wright of Texas, the majority leader, accused Mr. Reagan of making "fallacious and misleading" statements during his speech before Congress Tuesday night and in subsequent meetings with wavering legislators.

But in private Democrats were

But in private, Democrats were far less optimistic about their chances of blocking Mr. Reagan's budget proposals when they come to a vote in the House this week. The Democrats hold a 52-seat edge, so the Republicans need 27 defectors to carry the day, and vote counters on both sides estimate that at least 30 conservative Democrats seem certain to back the president.

A House vote, which the White House has predicted will be "very, very close," is expected by

Rep. Thomas S. Foley of Washington, the Democratic whip, noted that it would be hard for any Party has published based some of their harsbest to date in denouncing the political pressure to support the old posters.

passports with invisible coded symbols designed to be read by machines, it is hoped that such passports will be more difficult to fake.

The investigators, who said that drug smugglers were among the main users of fraudulently obtained passports estimated that at The State Department agents said that the system made it simple for foreign agents to obtain U.S. passports and that thousands of tained passports, estimated that at least 30,000 and possibly more than 60,000 of the 3 million passport applications received each year are submitted by persons llegal aliens were living in the United States after establishing citizenship with a fraudulent passport. The 1976 study estimated, based on information obtained in occasional arrests, that thousands of fugitives from the law had State Department officials ac-knowledged that there was fraud probably created new identities af-ter obtaining a falsified birth certi-

rare cases, and contrary to the spy-ficate and using it to obtain a

The field agents asked that their names not be published because of possible reprisals. Asked to comment on their assertions. Michele Truitt, a supervisor of anti-fraud efforts in the U.S. Passport Agen-cy, which is a separate division in the Justice Department responsible for the issuing of passports, acknowledged that many passport frauds probably never are detect-

"Some people say that what we do detect is only the rip of the ice-berg, and they're probably right," she said. She added that given the 3 million passport applications each year, the number of fraudulent ones is probably retatively small, and to investigate and pros-

ecute would be very expensive.

She agreed that more needed to be done, and she complained that conviction for passport fraud usu-ally results in a sentence of only a few months in prison.
But officials say there will be no

quick solutions to the problem of passport fraud. "The pros know exactly what to do, what our setup is," said Marge Russell, a Passport Agency specialist on fraud who works in San Francisco. They know that the only check that is made after they file an application. to learn if anybody is looking for them, is to check a computer with their name and date of birth. They can use their own name but change their birth date, and no one ever

6 Ex-Attorneys General **Denounce Abortion Bill**

By William J. Eaton

Los Angeles Times Service
WASHINGTON — Six former U.S. attorneys general have de-nounced pending anti-abortion legislation as a "dangerous circum-vention" of constitutional avenues for reversing Supreme Court deci-

The three Republicans and three Democrats said Saturday that Congress has no power to overturn the 1973 Supreme Court abortion rights decision merely by the passage of a law.

But agents say the supporting doc-uments provided by applicants are checked for authenticity only in The six are Herbert Brownell (who served under President Eienhower). Nicholas D. Katzen-SION, Switzerland — Two Canadians, a Briton and three Swiss bach and Ramsey Clark (President Johnson), Elliott L. Richardson women, all experienced climbers, were killed when the tip of a gla-cier broke off the Grand Combin and William B. Saxbe (President Nixon) and Benjamin R. Civiletti

(President Carter). Their argument was aimed at a measure sponsored in the Senate by Republican Jesse A. Heims of North Carolina and in the House by Henry J. Hyde of Illinois, also a Republican, that would define unborn babies as living human beings from the moment of concep-

Proponents contend that this would allow states to forbid abortion as a form of murder and thus nullify the Supreme Court's ruling that women have a constitutional

right to abortion. The former chief U.S. legal officers made their views known in a letter to Republican Sen. John P. East of North Carolina, chairman of a Senate Judiciary subcommittee on separation of powers, and to Sen. Max Baucus of Montana,

ranking Democrat on the subcom-

mittee, which will resume bearings

on the bill May 20. "Our views about the correctness of the Supreme Court's 1973 abortion decision vary widely, but all of us are agreed that Congress has no constitutional authority either to overturn that decision by enacting a statute re-defining such terms as 'person' or 'human life,' the letter said.

Talks on Multinational Sinai Force to Open in U.S.

By Don Oberdorfer

Washington Post Service
WASHINGTON — Military experts from the United States. Egypt and Israel have gathered here to begin work Monday on operanonal details for a multination al peacekeeping force that would put U.S. troops permanently on guard in the Middle East for the first time.

The military meeting and other developments indicate that the largest procedural and political problems have been worked out, with the three nations now moving rapidly toward creating an interna-tional unit to monitor the Sinai after the scheduled withdrawal of Is-

raeli troops next April. The State Department announced that the military meeting to be held bere through Wednesday, followed a U.S. "conclusion" that the United Nations will not sponsor a peacekeeping body for the Sinai as envisioned in the

Egyptian-Israeli peace treaty. In view of this determination, the State Department statement said, the United States will take the steps necessary to establish and maintain a multinational force outside a UN framework. This is in keeping with a commitment given to Israel by President Jimmy Carter during the peace negotia-

Before Israeli Election

After this week's meeting of military experts, the State Department said, political officials of the three nations will meet on the issues a few days later in Giza, Egypt. Final agreement on the force is expected before the Israeli election on June 30.

A draft copy of a proposed agreement to establish the force will be placed before the military experts Monday by the United States, which has drawn it up after discussions with Egypt and Israel. "No discussions whatsover took

9 More in Iran Are Executed

TEHRAN - Nine persons were executed in Iran after being found guilty of drug trafficking, robbery and sodomy, the state radio said Sunday, It said they all had had previous convictions and were sen-tenced after trial by Islamic revolutionary courts.

Five were executed Saturday by firing squads in the eastero city of Kerman, three in the western city of Kermanshah and one in the northwestern city of Khoy, according to the report

Last week 10 persons were executed in Tehran for prostitution and dealing in drugs, and a convicted thief had one hand chopped off by order of a revolutionary court in Kerman.

Parado Platz 8022 Zurich lelephone III : 211.53.60 Telex 52 845 savay ch. The draft calls for a force of 2,000 da, Australia. New Zealand and to 2,500 men, organized in three others approved by Egypt and Issmall battalions, according to in-

One of the three would probably be a highly mobile but lightly armed U.S. infantry battalion. The aim of the force's organizers is to that the United States will pick up obtain the rest of the multinational most of the costs, directly or indiforce from such nations as Cana- rectly.

bave expressed concern about placing U.S. military forces permanently in an exposed position in a volatile part of the world. The House Foreign Affairs Committee, in legislative language in the process of being adopted, has specified that the United States cannot

proposal and has enacted legisla-tion expressly authorizing such ac-tivity." But in the end. Congress is expected to go along.

In several months of sometimes

public jockeying. Israel argued for the largest possible peacekeeping force with the largest percentage of U.S. troops, while Egypt argued for a smaller force with minimum U.S. participation. A force of 2.000 to 2.500 members force, with a strong minority of U.S. soldiers, is reported to be acceptable to

Egypt also insisted that a serious effort be made to persuade the UN to play the sponsoring role set forth for it in the Israel-Egyptian accords. But Cairo increasingly was convinced that this was unlikely, in part because of a potential Soviet veto. Therefore, Egyptian diplomats began negotiating in New York for a letter from the UN Security Council chairman stating that UN sponsorship is po-litically impossible. Such a letter is likely to be arranged this mouth,

diplomats said. Another Egyptian concern, which apparently was laid to rest by Secretary of State Alexander M. Haig Jr. in talks last month with President Anwar Sadat, is that the U.S. contingent of the peacekeeping force might take a regional security role as part of the

U.S. Rapid Deployment Force.

Republic. The baby is about 14 feet long and weighs 4,000 pounds; its mother is 45 feet long

and weighs 40 tons. In the background is an escort, usually a male, weighing about 45 tons.

U.S. Grain Embargo May Have Caused

V. Tikhonov, a senior agro-economist, wrote recently in Pravda: "Although the embargo has failed, it does make us have second thoughts about the advisability of

large-scale wheat purchases."
Mr. Tikhonov, a member of the Academy of Agricultural Sciences, suggested in the article that the nation should "return to the role of wheat exporters" by increasing the cultivation of grain for human consumption. "In return for these kinds of wheat, we could increase imports of the high-protein feeds we still cannot produce enough of ourselves," be added.

But there are no quick fixes for Moscow for what has always been the weak element of the Communist economy. Agricultural results during the Brezhnev era have lagged far behind hopes, despite billions of rubles spent to set up integrated agro-industries, reclaim land, increase fertilizers and mechanization, improve crop species, and raise pay and hving standards for the nation's 25 million agricultural workers.

Bob Bergland, the former U.S. agriculture secretary, who was here last week talking with Soviet agrobusiness chiefs on behalf of a private company, declared, "The Sovict Union is a permanent feed importer." A CIA report in 1979 forecast that the Soviet Union would have to import 15 million tons of feed grains annually to maintain and build livestock herds, regardless of its own harvest

Saddled with chronic inefficiencies that, for example, result in officially estimated crop losses of 20 percent even under ideal condi-tions, the Soviet Union was hit hard by Mr. Carter's ban 16. months ago on 17 million extra tons of grain. Soviet per capita meat consumption, according to the official Novosti press agency, rose to 125 pounds in 1977 from 105 pounds in 1970, and has declined slightly since then. Attaining the official goal of 180 pounds per person is thought to be dec-ades away.

Quick deals allowed the Soviet Union to make up almost all of the 35 million tons of feed they needed for 1980-81 to maintain the herds. But they paid premium prices, often for lower-protein grain, and shipping schedules were disrupted. Westerners say that ships at the major grain port of Odessa must wait a minimum of three weeks, double the usual time, to begin un-

Reduced fodder reserves after wo poor harvests in a row, and subpar years in six compounded the problem. Western predictions that the Soviet Union would engage in major animal slaughters because of lack of grain proved wrong but cattle are thinner and milk output is falling. Official figures in the Ekonomicheskaya Gazeta sbow cattle slaughter weight now 5 pounds lighter than last year, total meat production down slightly, and milk production down about 4 percent from 1980, after falling about the

percent from 1979. The cumulative effect for a nation with a growing population is to make fresh meat and milk either scarce or a luxury item. Russians and foreigners throughout the past year have reported milk rationing absence of meat in state stores in such major provincial cities as Kazan, Kharkov and Vologda. Prices in the farmers' markets in Moscow have soared for yeal, beef and even pork, ranging between \$4 and \$10 a pound recently. The average monthly income is about

The political quotient of unfulfilled promises of more meat on Soviet dinnel tables has been raised enormously by the Polish crisis. Analysts in Moscow point out that the jamming of Western radio stations continues, while the official media have said little about Soviet food aid to Poland, where meat and other shortages sparked demonstrations that have been transformed into one of the Kremlin's gravest postwar crises.

Soviet President Leonid L. Brezhnev has admitted that problems still exist in supplying meat and produce to the nation's cities. He announced a special food program in February to try to remedy the

Soviet Friends Get Grain

LONDON (AP) - The Soviet Union has purchased 330,000 tons of wheat for shipment to Afghanistan and 22,000 tons for Nicaragua, the International Wheat ouncil reported.

Poles Commemorate 1791 Constitution

By Brian Mooney

WARSAW - Poland on Sunday celebrated the 190th anniversary of the proclamation of a liberal constitution, and for the first time since the Communists came to power it was marked by extensive official ceremonies and media cov-

The short-lived 1791 constitution, an enduring symbol of Polish independence, had until this year been honored under the Communists almost exclusively by the Roman Catholic Church and by

The Communists said after taking power at the end of World War II that the May constitution was a

relic of the bourgeois past.

But in keeping with the new political climate in Poland, the event was marked Sunday with official ceremonies across the country. The independent trade union

Solidarity also held a ceremony in Warsaw's Royal Castle, where the constitution bas been put on display. Dissidents organized a meeting and a march through the capi-tal Satruday night. In some parts of the country, the

church, Solidarity and the Com-

munists joined together to celebrate the anniversary. Silence Questioned

A commentator on state radio asked why the anniversary, which was a public boliday in prewar Poland, until now had been passed

over in silence. "It is a beautiful anniversary of an historical event ... a progres-sive event, which can be inscribed into any ideology," the commentator said, adding that refusal to commemorate the date pointed to the absurdity of some past deci-

For the Roman Catholic Church, the May 3 anniversary is fused with a religious feast com-memorating the Virgin Mary, who is also honored as "queen of Po-

5 in Turin Arrested The Associated Press

TURIN - Five suspected members of the leftist Front Line urban guerrilla group have been arrested here in two separate raids, police said. They were identified as Vincenzo Lombardi, Cosimo Rombo-la, Carmela de Stefano, Gerardo Ceres and Alberto Bonvicini, all of Turin and all in their early 20s.

Cambodia is expected to be convened by the United Nations in Vienna in July, in keeping with a General Assembly resolution calling for the departure of Vietcamese forces from Cambodia and the holding of elections there under UN sponsorship.

Enter Sihanouk?

Because of Pol Pot's poor international standing because of his government's brutality after his regime took control in 1975, the United States and other cations would like to see the resistance taken over by some political figures more acceptable to Cambodi ans and to the world community.

A likely candidate in the past

Son Sann, who describes himself as president of the Khmer People's National Liberation Front, bas been in the United States for the last week and met in Washingtoo last Wednesday with John H. Holdridge, the assistant secretary of state-designate for East Asian and Pacific affairs. The Khmers are one of the native ethnic groups of Cambodia.

States has decided to support ef-

forts by Chioa and other Asian

countries to put together a more

unified resistance movement

against the Vietnamese-backed

government in control of Cambo-

dia, according to Reagan adminis-tration officials.

The U.S. support so far has been

limited to political moves, and of-

ficials said they did not anticipate

providing military assistance to the resistance since China is now send-

ng military equipment. Peking has

supplied arms not only to the hard-line Communist guerrilla

forces loyal to the former govern-

ment of Pol Pot, but also to the much smaller non-Communist force led by Son Sann, the former

premier under Prince Norodom

WASHINGTON - The United

The former premier was preceded here several weeks ago by some of his leading aides, who met with administration officials and members of Congress about political and military backing against the government of Heng Semrin. which was put into power io Phnom Penh by the Vietnamese after they deposed the Pol Pot regime in December, 1978.

'Elevated Importance

"We are in favor of broadening the non-Communist Khmer resistance to the Vietnamese," a State Department official said Saturday. "In that spirit, we accorded some elevated importance to the visit of Son Sann, The main thing is that we support the growing unity io the movement, but we do oot wisb to tell them what to do."

The official said that the United States hoped that the Cambodian resistance forces would be able to overcome their own differences and come up with a united leader-

Also in Washington last week was Siddhi Savetsila, the Thai foreign minister, who was also repre-senting the Association of Southeast Asian Nations (ASEAN). Secretary of State Alexander M. Haig Jr. told Mr. Siddhi that he would attend the meeting of ASEAN foreign ministers in Manila oext month. U.S. officials are hoping that a clearer idea of the leadership of the Cambodian resistance movement can be worked out by

An international conference on

an capital, Pyongyang. He has met with representatives of the Pol Pot forces and last week sent a message to Son Sann requesting a meeting with him.

But Prince Sihanouk has beeo reluctant to take the lead in the resistance. Whether he is simply waiting for the right moment to come forward or genuinely prefers to remain in the background is uncertain, officials said.

He has said that he continues to distrust the Pol Pot forces, asserting that they want to dominate the resistance movement. Pol Pot lives in a mountainous area of Cambo-

dia with some of the 30,000 Khmer Rouge troops he is believed to control. They have been armed by the Chinese and are the most significant guerrilla force operating against Heng Semrin's troops and the Vietnamese forces.

Aid to Son Sann

It was reported from Bangkok last week that China had supplied military equipment to Son Sann's forces along the Thai-Cambodian border — the first time that anti-Vietnamese forces, other than those of Pol Pot, had been helped militarily by the Chinese.

The press reports, which have not been contradicted in Washington, said that there was enough

equipment to supply as many as 15.000 men. The decision by China to supply the equipment was viewed here as part of an effort by Peking to persuade Son Sann to play an active role in a more united resistance effort.

In a telegram to Agence France-Presse, Prince Sihanouk also said that China was now willing to supply him with "a small amount of military aid." but that because he felt it was insufficient to allow him to organize much of a force, he was committing himself and his followers to joining the proposed united front only as "ordinary" members. He said he was leaving the leadership of the front to the Pol Pot group and to Son Sann.

Study Calls Religion Key to Behavior of Americans

By Russell Chandler

Los Angeles Times Service
LOS ANGELES — Religious commitment, more than any other factor, has an overwhelming impact on almost every major aspect of American life, according to a new public opinion study.

The report, "American Values in the '80s: The Impact of Belief," says that religious values - or lack of them - are a far more accurate predictor of attitudes and behavior than are race, sex, age, income, ed-ucation, occupation or political persuasion.

The poll, conducted late last year for Connecticut Mutual Life Insurance Co. by Research and Forecasts Inc. of New York, purports to be the first national survey to measure degree of religious commitment. It finds that the United States is a nation of people committed to religious beliefs and that these beliefs significantly affect how Americans relate to their communities, friends, families and jobs, and how they make political and moral decisions.

The study identifies a moral current" in the United States - "n widespread religiousness that is spontaneous and diffuse, rather than part of the Moral Majority." The report also says that U.S. leaders are strikingly out of tune with the average citizen over leadership values and moral issues.

Prayer, Services

Almost three out of four respondents consider themselves religious and say that religion would become a more important factor in their lives if they knew they had only six months to live. Seventythree percent frequently believe that "God loves" them. About half pray and attend religious services. Almost 26 percent are "highly religious.'

Results of the survey square with those of other recent national polls, but the Connecticut Mutual report goes further, measuring re-

ligious commitment on the basis of cent were Catholic and 2 percent criteria other than participation in were Jewish. "Other" faiths and

organized religion. Eight criteria were used: feeling that "God loves you," engaging in prayer, attending religious services, reading the Bible, having a religious experience, participating in a church social activity, encouraging others to turn to religion and

listening to religious broadcasts. Sixty-two percent of those polled said they were Protestant, 28 per-Canada Charges

Newspaper Units With Conspiracy The Associated Press

TORONTO - Canada has charged its two largest newspaper groups with conspiring to reduce competition and gain monopoly control of the oation's major English-language newspapers.

The government filed the charges Friday after it investigated

the day known among Canadian journalists as Black Wednesday, last Aug. 27, when newspapers closed in Ottawa and Winnipeg.

The charges were made against Thomsoo Newspapers Ltd. and Southam Inc., which together con-trol more than half of Canada's newspapers. Claude Thomson, a lawyer re-

tained by the government to prosecute the case, said the newspaper chains were accused of working to reduce competition in daily English-language newspapers in Montreal, Ottawa, Winnipeg and Van-couver between 1978 and 1980. If found guilty, the newspaper groups could face multimilliondollar fines.

Kenneth Thomson, bead of Thomson Newspapers, declined to comment oo the government's charges, George Fisher, president of Southam, said, "I can't under-

"oo faith" accounted for 8 percent.

People who are the most religious are particularly likely to take part io political activity, the study shows. And they are overwhelmingly more likely to be involved in their communities than are the

least religious. The survey shows that the most religious outvote the least religious by a 3-2 margin and are five times as likely to attend neighborhood and community meetings.

'Beginning of Trend'

"Our findings suggest that the increasing impact of religion oo our social and political institutions may be only the beginning of a trend that could change the face of America," the report states. "The intensely religious...may well be the most vocal group in the 1980s, just as it was the disenchanted who were the most vocal in the '60s and

Although the more religious tend to be more strongly committed to persocal relationships than the less religious, the study finds Americans generally willing to consider divorce as a solution to an unhappy marriage. The report also detects a radical shift in the way people view marriage and family, with twice as many preferring "an integrated, more egalitarian approach in which both husband and wife cooperate in working, homemaking and child rearing" to the traditional male and

female roles. Except for the clergy and busi-nessmen, many U.S. leaders hold values and attitudes that are more liberal than those of the general public. They are far less likely than the general public to believe, for example, that homosexuality is morally wrong (42 percent vs. 71 percent) and are much less inclined to believe that abortion is immoral (36 percent vs. 65 per-

While 74 percent of Americans believe that it is important for the United States to have the strongest military force in the world "no matter what the cost," the survey shows that the most religious and the least educated are most likely to believe this.

The survey was based on 2,000 hourlong telephone interviews with members of the general public and more than 1,700 questionnaires completed by a cross section of U.S. leaders.

2d Breakdown On the Norway Prolongs Cruise The Associated Press

ABOARD THE NORWAY -The Norway, the world's largest

cruise ship, limped back toward Miami a day late with two of its three boilers operating Sunday after a second breakdown in eight months left 1,780 passengers without electricity and water for 24 "This is definitely my first cruise

and my last cruise," one woman yelled when all hot food service stopped Friday. She declined to be identified or say how much she paid for the seven-day circle cruise, which cost as much as \$1,450 for

Capt. Aage Hoddevik said the Norway had sufficient power to start again early Saturday. He insisted that the ship was never in any danger during the outage and said oo passengers had had health problems. "Of course it was oot an emergency," he said.

The Norway, formerly the France, was expected to dock in Miami on Monday morning. The Norwegian Caribbean Lines in Miami said that the firm was working on a refund program,

Howrdional driver are you?

ing refinement of a 6-cylinder engine. It makes sense even when you're talking about a naturally more economical 2-litre capacity engine. It makes sense to indulge in this apparent luxury, because a 6-cylinder's fuel consumption isn't only as favourable as an equivalent 4-cylinder, but in most cases can show a significant improvement.

It makes sense to invest in quality and reliability which have been perfected over the years. So it follows that it also makes sense to reckon on long-life durability. Which is just a short step from expecting a high resale value as well.

Judged rationally, they are all points that make it quite clear that a decision in favour of the exclusiveness of a BMW can't be beaten for sheer common-sense. And because these days nothing makes more common-sense than driving a good bargain: BMW 520.

Compare the BMW 520 with cars in the nexthigher engine capacity range. You'll quickly

The BMW 520 has performance and safety reserves normally only associated with 6-cylinder cars with considerably larger engine capacities. And these qualities are combined with exceptionally favourable fuel consumption figures. As a result, the BMW 520 is an excellent example of how advanced and demanding technology - without compromising on performance or economy -can make more out of less, even when it comes to smaller capacity, medium-range cars.

BMW cars. The BMW range of fine automobiles: the ultimate in performance, comfort and safety.

Toward Arms Controls

Concerning nuclear arms control, the Reagan administration is clear so far only about what it doesn't want. It doesn't want to negotiate from weakness and it doesn't want the SALT-2 treaty inherited from Jimmy Carter. The suspicion that President Reagan is innocent of any positive thoughts about the subject may concern the Soviet leaders. It certainly worries the United States' allies. And their fears are only partly allayed by the team that Mr. Reagan has now chosen to guide the Arms Control and Disar-

mament Agency.

Lt. Gen. Edward Rowny is to be chief arms control negotiator. His boss as director of the agency is expected to be Eugene Rostow of the Yale law faculty. Both were out-spoken opponents of the SALT-2 treaty. whose negotiation Gen. Rowny attended to the end before resigning in protest. He is undoubtedly knowledgeable, but he also has a dramatic dissent to defend.

Mr. Rostow, a senior official in President Lyndon B. Johnson's State Department and an authority on international law, is a somewhat more plausible nominee. As a spokesman for the unofficial Committee on the Present Danger, he anticipated the Reagan approach; he strenuously urged shelving SALT-2 until the United States gains a much higher level of nuclear and conventional military strength. Whether he is now ready to lead the arguments in favor of suitably updated arms agreements depends on how thoroughly he really believes in the process. By

definition, it requires that for every essential concession from the Soviet Union there also

be concessions to its security requirements.

The purpose of arms control so far has been to find stable levels of armament that preclude a mad and costly contest for an illusory nuclear supremacy. Some of the nation's military leaders are paid to go on searching for supremacy nonetheless. Mr. Rostow will be paid to resist and indeed work against such a breakthrough by either superpower. One-sided arms control agreements are useless even if the advantage is temporarily that of the United States.

One indicator of Mr. Rostow's inclinations will be the staff he assembles at the arms agency. The first signs are encouraging. Presumably at his urging, the White House has dismissed two aides known for their nay-saying — Michael Pillsbury, the acting deputy director, and David Sullivan, the acting counselor.

The next clue will come in diplomacy with the European allies. The United States has been pressing NATO nations to deploy medium-range nuclear weapons in Western Europe to achieve a better balance as a basis for East-West negotiation. But to overcome the public resistance this has aroused, the allies have been pressing for an overarching SALT framework. The Reagan administration's decision to resume discussions in Geneva with Soviet officials on arms control compliance is a step in the right direction.

THE NEW YORK TIMES.

It's Time for Namibia

It was a foregone conclusion that the United States, with its allies, would veto new UN resolutions demanding sanctions against South Africa for dragging out independence for Namibia. Since such sanctions would devastate various African nations with economic links with Pretoria, the call for them had to be seen mostly as a way to dramatize African commitment to a free Namibia. The Reagan administration, having just lifted an old sanction against an adversary, could not have embraced new ones against a state it regards as a friend. The administration believes, moreover, that sanctions will simply stiffen South Africa further in coming Namibia negotia-

OK. But having vetoed sanctions partly to expedite negotiations, the administration comes under a fresh obligation to perform. The South African government had waited for Mr. Reagan to see if he could win it better terms. He is promising just that, including Zimbabwe-like constitutional guarantees to protect Namibia's white minority against its specter of a SWAPO electoral sweep. Surely the administration will use its full influence to deliver South Airica to terms regraited for its comfort.

But why, then, has the State Department warned that the United States may abandon its negotiating effort if there are not realistic prospects of success? In one sense this was a call to the "front-line" states to help out. But it could also be read as a veiled invitation to South Africa to resist. That reading should not be allowed to stand.

In this regard, the results of the recent elections among the ruling white minority in

South Africa are relevant. Prime Minister P.W. Botha's governing National Party won re-election but suffered incursions from both right and left. Earlier doubts about South Africa's strength and determination to move toward reform internally and coexistence externally are bound to grow. Inevitably it will be asked if South Africa still meets the test - that it be making "a sincere and honest effort ... to remove apartheid" — that President Reagan set for U.S. friendship. At the least it means for U.S. diplomacy on Namibia that the United States will have to be very firm in guiding the way.

The United States will also have to take care not to raise an unnecessary barrier in Namibia by demanding a prior departure of Cuban troops from Angola. Those troops are there for two purposes — to protect the Angolan government against South African forces punishing Angola for harboring SWAPO guerrillas, and to protect that government against its own guerrilla challengers. It is necessary that the Cubans depart: No African should accept that 20,000 foreign troops come from across an ocean to aid one side in an internal struggle for power. But all Africans accept that an African government under constant assault by South Africa, as Angola has been, will seek help where it can. Its foreign minister recently affirmed that Angola will send the Cubans home "when Namibia will be independent, and the aggression against Angola from South Africa finished." This is the pledge the United States should try to make come true.

THE WASHINGTON POST.

Saving Face, Losing Wheels

In the semi-quotas now imposed on their automobile exports to the United States, the Japanese have an example of the curious Occidental custom known as saving face. The Japanese automobile manufacturers, a tough and pragmatic crowd, will probably have difficulty understanding it. But in Washington they are dealing with a highly traditional society in which this kind of symbol and gesture is very important. The Japanese will have to get used to the inscrutable West.

President Reagan stands for free trade and open markets. But he also stands for assistance to the American automobile industry. What was he to do? He discreetly suggested to the Japanese government that it might want to rescue him from this dilemma by putting a rein on its automobile industry. The Japanese government, which does not have reliable control over automobile exports, was not eager. Many Americans in official positions then sharpened Japanese attention by suggesting that Congress was about to pass legislation of a ferocity and vengefulness hardly to be described in cold print. The Japanese sighed. Mr. Reagan's trade representative, Bill Brock, was dispatched to Tokyo. After a good deal of fencing, he succeeded in achieving an agree-

The Japanese promise to limit their cars sent to the United States during the coming year to 1,680,000. Some people consider that just about the number that they might have been able to sell without the limitation. Others think that it may be several percentage points lower.

How much actual difference will it all make? The agreement itself is, first of all, a wretched precedent. At the least, it provides an example to which the American automobile industry will keep returning in the difficult years ahead.

As for the actual economic cost, that will depend on the demand for Japanese cars and whether it begins bumping against the limit. If car prices don't accelerate, it means that the limits are having no effect on the market.

That's why the whole controversy has been not only embarrassing but dangerous to the Reagan administration. The central purpose of its economic program is to bring down the inflation rate. Import protection isn't very effective in preserving jobs or stimulating investment. But it raises prices.

The administration seems to have reasoned that it could afford to make an exception here on grounds that the automobile industry is a special case. But is it? Last week's special case was grain and the lifting of the Soviet embargo — another decision signaling higher prices at home and, incidentally, carrying certain implications for security policy abroad. Speaking of security policy, Japan's oremier. Zenko Suzuki, will arrive this week for talks on, among other things, defense. Since he has cooperated generously in this exercise in face-saving, Mr. Reagan will have some difficulty pressing him very severely for a greater contribution to Pacific defense which would be, for the Japanese government, a far more expensive proposition.

THE WASHINGTON POST.

In the International Edition

Seventy-Five Years Ago May 4, 1906

WASHINGTON — The President intends to send to Congress the report of the Commissioner of Corporations, Mr. Garfield, of the Standard Oil Trust. It is understood that Mr. Roosevelt will. as a result of the disclosures, order proceedings against not only the railroads for giving rebates. but also against Mr. Rockefeller and men prominent as his associates, for accepting them. Both giver and receiver are equally guilty under Fikins law, but under Mr. Roosevelt's compromise trust legislation of three years ago, imprisonnt is impossible. It is said that Mr. Garfield d not get evidence connecting the Standard ompany with rebates until one of his men

Fifty Years Ago

May 4, 1931 NEW YORK - Sitting in perfect comfort in their homes, scores of strangers today focused on what is hailed as the first television wedding in history. Miss Grayce Jones, 20, and Frank Duvall, 25, a television engineer, are the newlyweds who obligingly furthered what Mr. Duvail called the cause of science, by obligingly staging this somewhat spectacular ceremony. Like movie stars the couple stood in the center of a dazzling spotlight while a preacher intoned the words that made them one. In a corner, the television apparatus hummed, and persons who never before had heard of the couple looked to see if the bride's gown was of the right length or the bride-

Cutting the Russians Down to Size By Anthony Lewis

BOSTON — The United States is about to embark on its greatest military buildup since World War II. If the Reagan administration has its way in Congress, the defense hudget will more than double during the oext five years. There will be large oumbers of new ships, planes, tanks, mis-siles — and up to 250,000 more men and women in the armed

The premise of this sharply accelerated program is that the Sovi-et Union is pulling ahead of us, and doing so in just about every branch of the military. In recent years there has developed a whole literature warning of approaching Soviet superiority on land, sea and

There is no doubt that the Russians have made an enormous effort to huild up their forces. It is true, too, that the U.S. services have problems, especially in readiness and the quality of personnel. But have the Russians really acquired an advantage io what could be called the front line of potential conflict, in the weapons and men of conventional warfare?

Equipment Is Examined

That crucial question is explored in an unusual program to be shown this week of Public Television. It is unusual because it goes beyood intelligence estimates to actual examination of Soviet equipment and training. We hear from former lieutenants in the Red Army, now in the United States, and from Americans who have tried captured Soviet equipment.

The program, one of the series done by statioo WGBH io Boston, is called "The Red Army." It was written by a British journalist, Andrew Cockburn, and produced io association with Granada, a British commercial television company. The conelusion is that the Russians are not 10 feet tall.

Tanks, for example: a majostav of Soviet forces is the 20-year-old T-62. Some of these tanks, captured by the Israelis in their wars with Egypt and Syria, are now at Fort Hood, Texas, where they are used for training in how to fight against Soviet equipment

U.S. soldiers in Russian dress drive T-62s in mock battles. They are asked in the program what they think of the Soviet tanks, and the answer is: oot much. The T-62s are so cramped inside that only short men can get in. There is a manual transmission, so stiff that Russians use a sledge harmer to move it. Some of the fuel is in external tanks that are highly vulner-

Sasha Dormand, who was a lieutenant in a Soviet tank division from 1972 to 1974 and now lives in Brooklyn, N.Y., says he was allowed to fire only six real shells a year in training. (U.S. crews are said to fire 36.) Mr. Dorman says the T-62 firing rate is only half that of U.S. tanks. And the T-62 has an ammunition loading device that can kick back, severely injur-

A Dim View of MiGs

A surprising disclosure on the program is that the United States lies captured MiG jets in secret at a base in the Nevada Desert. And an expert questioned at some length on the program takes a dim view of the MiGs. He is Chuck Meyers, an air warfare specialist formerly in the office of the Secretary of Defense.

The MiG-21, Mr. Meyers says, has "disabilities." For example, "cockpit visibility is quite poor." Altogether, "it is rather a poor air-craft," not up to the standard of current U.S. and allied planes.

A newer model is the MiG-25. known as the Foxbat. A defecting Soviet pilot took one to Japan in 1975 and it was thoroughly exa-

The International Herald Tribune welcomes letters from readers. Short letters have a better chance of being published. All letters are subject to condensation for space reasons. mined before it was returned. Boh mined before it was returned. Boh Sherman, a congressional defense analyst, said it was "very disap-pointing technologically" — made largely of steel, for one thing, in-stead of the titanium the United States would ose. Its pilot said its actual range was oot the reputed 700 miles (1,120 kilometers) from base but 186.

As to ships, the estimate given is that the Russians have 289 major surface ships to the United States 175. But the U.S. ships are much larger and more powerful, with a total tonnage twice the Soviet ves-

The program also speaks of a serious morale problem in the Soviet Navy, where the sailors get only 10 days of leave in three years of service. In 1975 there reportedly was a mutiny on a Soviet destroyer.

Sasha Dorman and another for-

mer Red army lieutenant, Alex Rantanor, talk of personnel trouhles in the army: notably alcohol-ism and racial animosities. Mr. Rantanor says that Russian sol-diers dislike their comrades from Soviet Central Asia, calling them "animals" and often keeping them in construction battalions.

There are morale problems in

the U.S. services, too - and problems of weapons and equipment. This television program should not make anyone smug about Western military capability. But it should encourage some healthy skepticism about those reports of Soviet military supermen.

Too often the stories about amazing Soviet weapons come from people, in our services or defense contractors, with an interest io exaggeration. Congress should insist on looking at the hard facts

01981, The New York Times.

Remember the Holocaust

By Stephen Klaidman

WASHINGTON — Often, the news of an event obscures its meaning. That happened at the White House last week at a cere-mooy commemorating the Holo-President Reagan became emo-

tional io response to a deeply mov-ing and dramatic appeal to remem-ber the incomprehensible — the systematic slaughter of six million Jews during World War 11 — and seemed to suggest that he was changing his administration's human rights policy. Mr. Reagan's words were re-

shows that evening, on the front page of The New York Times and on the second page of The Washington Post. The account included White House revisions assuring viewers and readers that the president didn't mean what he seemed to be saying.

By the time the news was report-

ed, it was clear that there was no change of policy. The event was interesting, but ephemeral, even trivial. But the rest of the ceremony, while symbolic, was important in ways that transcend politics.

Mr. Reagan touched on its sig-

nificance when he said: "I'm horrified that there are actually people now trying to say that the Holocaust was invented ... that there weren't six million people whose lives were taken cruelly and needlessly ... that all of this is propaganda." CROSSCURRENTS

The rest of that ceremony at the White House, the part that went almost unreported, was about remembering. It was about Auschwitz and Treblinka, Maidanek and Matthausen. The lesson was taught by Elie Wiesel, survivor, novelist and scholar, whose person burns with the same Old Testa-

The AWACS Sale

Sheikh Ahmed Zaki Yamani's statement (1HT, April 25) that Israel represents a greater and more serious threat than the Soviet Uoion is scarcely calculated to win Senate approval for sending them the AWACS planes. It clearly tor-pedoes the Haig theory that an Israeli-Arab consensus could be agreed on the importance and immediacy of a Soviet threat to the Middle East.

Moreover, it also removes the basic reason why the United States should consider sending the Saudi Arabians AWACS planes. No one in the United States thinks that the Saudi Arabians need the planes to defend themselves against Israeli

In the light of Sheikh Yamani's statement, one wonders whether the Saudis may have more than defensive operations in mind. The only interest of the United

States is to help counter the Soviet threat and since the Saudi Arabians regard this as a secondary matter Coogress should disapprove the AWACS deal. It might, indeed, increase the likelihood of conflict in the Middle East rather than dimin-

has universal implications. The memory of what was done to one people may shield other peoples. "Naturally other nations were persecuted, even decimated by the Nazis and their allies, and their

collaborators — and we honor their memory — but the Jewish people represented a different target: For the first time in history, being became a crime. Jews were destined for annihilation not because of what they said or proclaimed, or did, or possessed, or created, but because of who they were. Is that why we Jews are so concerned with memory? "And is that why we are so at-

tached to a land where many survivors have found pride and refage? Please understand us, Mr. President, we believe that the subject of the Holocaust must remain sepa-rate from politics. If we plead for Israel's right, -- not only to be secure, but also to feel secure, it is because of Israel's mightmares — which are also our nightmares." Mr. Reagan did not mention Is-

raci in his remarks. A White House spokesman said later that the president's oversight was insignificant because his commitment to Israel is "obvious in his mind." That may be, but for Elie Wiesel

and for all the other survivors who know what death camps were and only they can — it is not enough. Remembering means repeating. Understanding means not forgetting. That is what the White House ceremony was about. Citti, International Heroid Tribune,

A modest-sized calendar has

terest rates has knocked the wind out of the New York stock market, and as share prices fall convertibles become vulnerable. Either issuers withdraw, not wanting to set conversion terms in a falling mar-ket out of fear they would be giving away the stock too cheaply, or potential buyers withdraw out of fear that the conversion terms will have no relation to Wall Street re-ality when the dust has settled.

The most popular issue among the convertibles currently on offer is for Fujitsu. The Japanese computer company is offering \$80 mil-bon of 15-year bonds expected with a semiannual coupon of 6 percent and a conversion premium of around 5 percent over the To-kyo share price when terms are fixed. However, demand for the is-sue appears to be so strong that the terms may well be adjusted in favor of the borrower.

At the other extreme of popularity is a \$50-million, 15-year issue for Gillette Overseas Finance, with the coupon indicated between 814 and 8% percent and a conversion price anticipated at 10 to 15 percent over the New York share price when terms are fixed. The coupon is widely deemed to be too low and the conversion premium too high.

Also on offer are: • Wang Laboratories, \$50 mil-tion of 15-year bonds expected to bear an annual coupon of 8%-9 percent and coovertible into Wang's shares, listed on the American Stock Exchange, at a premi-um of 15 to 20 percent.

. Hexcel International Finance. \$12 million of 15-year bonds bearing a coupon of 84-9 percent and convertible into Hexcel's Big Board shares at an anticipated premium of 10 to 15 percent.

Nippon Kokan, \$100 million

General Dynamics: Troubled But Healthy

Wave of Military Spending Keeps It Afloat in Sea of Problems

By Winston Williams

New York Times Service ST. LOUIS, Mo. — Cancella-tions of Navy submarine orders. Strikes by coal miners. Threats of nationalization io Canada. Declining orders for the DC-10. Long delays in the construction of liquefied natural gas carriers. Continuing softness in construction. And a shakeout brewing in the telecommunications indus-

Such a catalog of problems ought to qualify any company for the sick list. But for General Dynamics, the conglomerate that is the U.S. government's biggest defense contractor, the future has seldom seemed brighter.
They're in an enviable posi-

manager for National Aviation and Technology, a specialized mutual fund. "The Reagan budget is very good for them." General Dynamics has profited handsomely from the quick-ened pace of military spending in the last two years. The company's earnings in 1980 rose 5.3

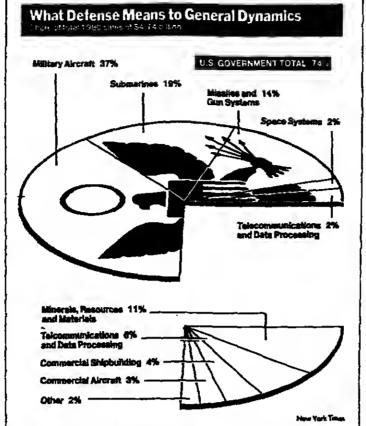

tion," says Marc Klee, portfolio

percent, to a record of \$195 mil-lion, while revenues climbed 16.8 percent, to \$4.7 billion. As the maker of several highpriority weapons systems — the Trident submarine, Cruise mis-siles and the F-16 fighter plane General Dynamics expects to be a major beneficiary of the Reagan administration's plans to authorize military spending of \$1.46 trillion over the five fiscal

years from 1982 through 1986. But these plans have stirred controversy. Congressional critics, complaining that the increases are too generous, have at-tacked wasteful practices and cost overruns.

The Pentagon, feeling the sting of this criticism, has been calling its suppliers to account. General Dynamics has received a lot of criticism recently over the performance of its nuclear submarine yard at Groton,

Last month, the Secretary of the Navy, John F. Lehman Jr., awarded contracts for three nuclear-powered attack submarines to Newport News Shipbuilding and Drydock in Virginia, a subsidiary of Tenneco. The contracts had been expected to go to General Dynamics. Citing de-lays and cost overruns, the Navy also canceled an option for a

ninth Trident submarine that was to be built by General Dynamics at Groton. But General Dynamics is de-

fending itself vigorously.

"We think it's extremely un-fair to blast us for being twoand-a-half years behind on the Trident," said David S. Lewis, the 63-year-old chairman of General Dynamics. "We're one of many contractors, and we don't have any control over the rest. ... The Navy is pieturing us as being in the same position as we were in the summer of 1980, and I doo't know why."

Last year the company's Electrie Boat division, its oldest unit and the foundation of the conglomerate, discovered that work on the Ohio, the first submarine of the Trident class, contained faulty welds and inferior grades of steel. Remedying all this has delayed completion of the Ohio. It is now scheduled for delivery next fall at a cost of \$1.3 billion, which is \$280 million above the original estimate. [Federal officials investigating-

possible fraud at Electric Boat in the cost overruns of more than \$800 million during the construction of other submarines are considering criminal prosecution, according to a report in The Hartford (Conn.) Courant, United Press International reported from Hartford.

[In another secret investigation, said the Courant, the Securities and Exchange Commissioo has subpoensed 550 company documents since 1978. The report said SEC summaries of in-ternal Electric Boat memos indicate huge numbers of idle workers and ineffective supervision at

the shipyard j
Mr. Lewis maintains that the delay on the Ohio resulted mostly from design changes mandated by the Navy through its Sea Systems Command, which is responsible for integrating the systems supplied by various contractors. He insists that the sea command is understaffed and thus incapable of overseeing all construction work.

To accommodate the new de-

mand for ships, the Navy has said it is thinking of building its own nuclear-powered submarines at a yard on Mare Island in northern California, 11 has also hioted at the possibility of build-ing some Tridents abroad, possibly in Britain.

Many analysts say they think the Navy is bluffing. And General Dynamics, with a backlog of about \$11 billion worth of defense orders, says it is not intimidated by talk of moving the Tri-

dent. Mr. Lewis, who left the presi-dency of McDonnell Douglas in 1970 to become chairman of General Dynamics, said it would take the Navy years and hun-dreds of millions of dollars to create its own yard and that building the Trident abroad would mean national security problems.

theing at odds with the Navy is nothing new for General Dy-namics. In 1979 the company and the Navy settled a series of disputes over the construction costs of nuclear attack subma-rines — disputes totaling \$718 million. As a result, General Dynamics wound up with an aftertax loss of \$187 million.

In spite of all the setbacks, General Dynamics says it is determined to keep on with its shipbuilding business.

Much of the congovernment business at General Dynamics. which accounted for 26 percent of the company's sales last year, seems to be in trouble. A strike has kept the compa

ny's Illinois coal mines elosed for several weeks. A Chicago unit that produces concrete has suffered from the construction slump. Skeptieism about McDonnell Douglas' DC-10, for which General Dynamics supplies part of the fusciage, has slowed sales of the arreraft.

Stromberg-Carlson, a subsidi-ary that makes switching equip-ment for independent telephone companies, has encountered mounting competition and a cyclical drop in demand. And the government of the Canadian province of Quebec has moved to nationalize General Dynamics' 55 percent interest in the As-Many analysts dismiss these

problems as almost inconsequential, however, in view of Geoeral Dyoamics' great strength in the defense industry.

Asian Bank to Meet Over U.S. Aid Cuts

From Agency Dispatches
HONOLULU — The Asian Development Bank has announced that contributing countries will meet in early July in Geneva on ways to replenish the bank's fund after the United States disclosed plans to cut its aid programs by \$56 billion next year. Taroichi Yoshida, president of

the development bank, said Saturday that the U.S. plans had very serious implications and could affect donations from other countries, including European member-

"Countries in Europe are also having a difficult time," Mr. Yoshida said at the end of the bank's three-day annual meeting here, in an apparent reference to President Reagan's budget-slashing programs.
Timothy McNamar, U.S. deputy

Treasury secretary, told the bank's 44 member states that his government planned to cut 86 domestic and foreign assistance programs by roughly \$56 billion in the 1982 financial year.

Some Encouragement

The 14-year-old multilateral financial institution, which made loan commitments of \$1.35 billion last year, and its associated Asian Development Fund, supply loans and other aid to two-thirds of the world's poorest countries.

Mr. Yoshida said the present

economic climate for increasing assistance was not favorable, but added, "I am encouraged by the understanding and the positive re-actions shown by the bank's donor

Finance Mioister Michio Watanabe of Japan said his country, the bank's largest lender, intended to double its international development aid during the cext five years over the past five.

According to official estimates issued in Tokyo, Japanese aid during the past three years totaled \$3.3 billion.

Mr. Yoshida said he expected the bank's international borrowing to exceed \$1 billion a year in 1983. The bank plans to raise \$650 million this year and has already brought in \$266 million.

Mr. McNamar tried to reassure the meeting that the United States would fulfill its commitments to the bank. He said the United States was

seeking appropriations to com-plete its \$50 million subscription to the bank's general fund and that it would complete its \$56.5 million

We want to do everything possible to be sure that the United States Congress will support any amount the United States negotiations agree to in future replenish-ment," Mr. McNamar said. Members of the U.S. delegation here said some members of Con-

gress favored supplying assistance directly to other countries to retain greater control over its distribu-

By holding its annual meeting in the United States for the first time, the bank, which has its beadquar-ters in Manila, had hoped to draw a number of 10p Reagan administration officials. Their absence was regarded as a sign that the Reagan administration's hard line toward foreign aid had not softened.

But a oumber of U.S. bankers did attend, which was seen as an indication that U.S. capital markets are interested in supporting the bank.

Between 1971 and 1976, the bank borrowed \$300 million from U.S. capital markets, but it has done no substantial borrowing

India Considers Drawing Funds

HONOLULU (Reuters) - India will consider drawing funds from the Asian Development Bank's development fund after 1986, marking the first time the country has come to the bank for assistance, said R. Venkataraman. India's finance minister.

He said sharp increases in the prices of oil and related commodities have imposed a heavy burden on the Indian economy.

Saudi Arabia Expects \$13-Billion Surplus Renders

JIDDA, Saudi Arabia - Saudi Arabia, the world's largest oil exporter, announced Sunday that it will have a 42 billion Saudi riyal (\$13 billion) surplus after spending a record 298 billion riyals under its new budget. Informatioo

Mohammed Abdo Yamani said after a Cabinet meeting that reveoues for the fiscal year beginning Tuesday would be 340 billion riyals and the surplus would go to the country's reserves. The budget for the current fiscal year set reve-oues at 262 billion riyals with a forecast surplus of 17 billion riyals.

APRIL 1981

Japan Asks Its Automakers Not to Flood EEC, Canada; Trudeau Seeks Export Cut

TOKYO - The Japanese government, which Friday agreed to voluntarily limit car exports to the United States, will continue to ask the Japanese auto industry to avoid flooding the Canadian and EEC markets, Trade Ministry offi-cials said over the weekend.

But Japanese officials also made it clear there would be oo automatic application of such export limits to markets outside the United Rokusuke Tanaka, minister of

international trade and industry, has been urging the Japanese car-makers to keep their shipments to Canada and the 10-nation European Economic Community at moderate levels, the officials said.

But a Japanese Trade Ministry official said Mr. Tanaka's request

has nothing to do with the govern-ment's agreement with the United States under which exports are to be cut this year by 7.7 percent.

Premier Zenko Suzuki, who will visit Canada following his U.S. tour this week and will also visit six Common Market countries in June, said Friday, "I want to make clear that the measures which have been taken for the U.S. are not automatically applied to the EEC and Canada."

[Canada's prime minister, Pierre Elliott Trudcau, will ask Mr. Suzuki to impose voluntary restraints on Japanese auto exports to Canada when the leaders meet next Saturday, Industry Minister Herb Gray said Friday in Ottawa, United Press International report-

[A four-member task force will fly to Japan on Wednesday in a

bid to convince government offiexports to Canada, Mr. Gray told a news conference. Japanese cars made up 15 percent of sales in the Canadian auto market in 1980, and gained a 20-percent share the first two months of 1981.

[Mr. Gray said be warned Japanese Ambassador Michiaki Suma on Friday that the government could impose a hefty surtax or a pan failed to respond to Canada's demands.

The EEC is expected to ask for an agreement similar to the U.S.-Japanese pact when its foreign ministers meet in the middle of

Brock Defends Pact Amid Mixed Praise Philip Caldwell, Ford's chairman and chief executive officer. an official, that the impact of the

WASHINGTON - Japan's voluntary limit on car exports will ultimately benefit U.S. consumers, restore thousands of jobs in the U.S. auto industry and have no adverse effect on prices and availability of foreign and domestic vehicles, according to U.S. Trade Representative Bill Brock.

But automakers and union officials were restrained in their praise for the agreement, which did not go as far as they would have liked. Industry analysts said it would provide little immediate help to Ford, American Motors and Chrysler. And consumer groups have con-tended that the limits would create

administration is trying to cut in-Immediate Effects

a scarcity of small, fuel-efficient

cars and drive the cost of foreign

and domestic vehicles up by as much as \$400 each at a time the

At a news conference Samuday, Mr. Brock hailed the Japanese decision as a "very positive step." said U.S. antomakers will feel the effects of the limits as early as Monday, when banks will be more willing to lend them the \$12 billion to \$14 billion they say they need to retool and become more competi-

The limits also should allow the recall of thousands of workers laid off in the auto industry, he said.

Mr. Brock said overall auto prices will not increase much because anto prices have generally risen less than the rate of inflation, and manufacturers have pledged to restrain their prices.

export agreement could be as high as an additional 0.5 percentage point on the annual inflation index, The New York Times report-

Mr. Brock also said that the agreement — under which Japan is to reduce its exports by 7.7 percent from this April 1 through March 30, 1982 — will oot mean many fewer foreign cars available for sale in the United States. Japan shipped 1.82 million cars to the United States last year, and would ship 1.68 million under the first year of the agreement.

from the European Space Agency in 1974. To add versatility, Erno designers developed a modular system of space-age building blocks that could be assembled in various configurations according to the needs of its future commer-cial, scientific or even military ap-

Spacelab's keystone is a large, drum-like instrument-packed compartment, roughly nine feet (three meters) long and 12 feet (four me-ters) in diameter. Ordinarily, Mr. Kutzer said, two such drums would be joined end to end to form a compartment that would accommodate up to four research-ers. They would live in the shuttle's forward quarters, enter Spacelab through a tunnel, and work there in what Erno engineers like to de-scribe as a "shirt-sleeve" environ-

Last November, Erno delivered a version of Spacelab to Cape Canaveral, where it is undergoing tests and will be used to train mis-sion personnel. An operational version is expected to be delivered before the end of the year.

Erno has a good cost-effectiveness record, according to analysts. Most of its work is financed either by the European Space Agency or West Germany's Ministry for Re-

shuttle's success provided a much-needed boost for Erno's Spacelah.

search and Technology. Most of its programs are financed up to the middle 1980s.

The Spacelab accounts now for

about two-thirds of Erno's activiabout two-inities of Erico's activi-ties — the company also builds the second stage of the European rock-et Ariane, designs and builds com-munications satellites, and builds Texus, a West German commercial rocket system used largely for scientific experimentation in weight-

such a request." At the same time, competing but less grand efforts were reportedly under way by a Chase Manhattan-Morgan Guaranty group as well as by Bank of America.

Upcoming Loan Deals

Meanwhile, Venezuela's water seeking \$310 million for one year. Banks are being offered a margin of 9/16 point over the 12-month

Middle East banks are organizing a \$500-million, one-year deal to finance Yugoslavia's imports of

oil. Banks have been invited to a meeting Monday in Bahrain to dis-

Fiat Finance, a holding company of the Italian car producer, will be seeking \$200 million for seven

Also upcoming is a \$300-million loan for Kowloon Electricity Supply. Terms on this transaction are expected to be very fine as it will be marketed alongside a U.K. government-guaranteed export credit, which may total as much as \$1.5 billion. The guaranteed export credit will be much in demand and part of the entry price will be participation in the financial credit. Schroder Wagg is managing the export credit, and Citibank is

doing the Euromarket portion.

Air New Zealand is expected to seek up to \$200 million from the Euromarket to help finance the purchase of three Boeing 747s. A long maintity of 12 years and a margin of a split #- 1/2 point over Libor are the rumored terms.

Svenska Petroleum, Sweden's state oil company, has abandoned plans for a \$350-million North Sea oil financing. Morgan Guaranty Trust, which won the mandate some time ago, reports the deal had the financial backing of banks. But Svenska, which was to use the proceeds to buy into an oilfield in the U.K. sector of the North Sea, has shelved that plan.

Rate Explosion Damages Bond Markets

(Continued from Page 7)

of 6% percent and convertible into the steelmaker's Tokyo-listed shares at an anticipated 5 percent

The issue for CSWI International Finance was cut to \$15 million from the planned \$20 million. The coupon was left at 9 percent and a premium of 12.07 percent was set to convert the paper into shares of Commerce Southwest, a bank holding company.

The only other dollar-denominated issues on offer are floating rate notes for the Industrial Bank of Japan (\$30 million of seven-year notes bearing interest at a quarter point over the mean bid-and-offered rate for six-month interbank deposits) and the Austrian Kon-trollbank (\$75 million of five-year notes paying 's point over Libor).

Despite a dismal performance of the Deutsche mark in the foreign exchange market (it ended the week in New York at 2.2210 to the dollar) and the paltry demand for fixed-rate DM securities, the capi-

tal market subcommittee has scheduled up to 650 million DM worth of new Eurobonds for the current month.

A like amount had been planned for the month just ended, although only 200 million DM actually made it to the market. Currently on offer is an eight-year issue of 50 million DM for Earofima, the company that finances the purchase of rolling stock for Europe's railways. The issue is being offered bearing a coupon of 10 percent and an issue price of 99% to yield

Svenska Handelsbanken's 60 million DM of six-year notes, sold at 99½ with a coupon of 10% percent to yield 10% percent was not well received, bankers reported. Scheduled to be launched this week under the aegis of Algemene Bank Nederland is a five-year Euroissue of 150 million guilders for the World Bank, expected to yield

about 12 percent.
The World Bank's £100 million five-year domestic issue, priced to yield 13.67 percent, attracted ap-

10.05 percent.

plications of around £181 million, lead manager Baring Brothers said. Finland is expected to shortly is-

sue £50 million of five-year domestic bonds, and the European Investment Bank reportedly also plans to tap this market soon.

How do you deal with cargo The cargo in question is energy, and it's coal from one distination. Crude oil from another. And more and more You deal with it by building ships: Special carriers designed to carry these energy fuels in a safe, efficient manner. NYK has these types of ships in service now. More are planned as

More are planned as energy needs change

sometimes a gas? and newer energy sources are discovered. At present Japan derives about 70 percent of its energy requirements from petroleum. Other nations too, rely too heavily on petroleum. And that's not good. We're recommending that reliance of petroleum be cut back by using alternative fuels. That's why we are

operating coal carriers, LPG and crude oil carriers-and planning newer fuel carriers. We know this is not the complete answer to the energy problem, but it's part of

it. It may be part of yours too. So why not give us a call. Let's work together by diversifying into other sources of energy because we have the kind of ships to carry the fuels safely and efficiently.

INTERNATIONAL HERALD TRIBUNE, MONDAY, MAY 4, 1981 Over-the-Counter red from Page 10) ARLINGTON, Texas — Larry Gura scattered six hits and George Tempor 2-49
Tondon
Tond of Chicago. Brett snapped out of a slump with four hits as the Kansas City Royals beat the Texas Rangers Friday night. The 4-0 defeat ended a streak of four shutouts by Rangers rocky start to pitch a seven-hitter as California bent Milwaukee, 8-4. pitchers, one short of the American League record set by Balti-more in 1974. The Rangers had thrown 39 con-secutive scoreless innings wheo loser Steve Comer allowed a sacri-FRIDAY BASEBALL Larry Gura fice fly by Frank White that drove in Amos Ous and gave Kansas City a 1-0 lead in the fourth inas manager Don Zimmer said of the shutour streak. "Nothing was mentioned when Kansas City scored. Comer was our of gas. He pitched well for five innings. The way Comer pitched I thought we would win, but we didn't. Hey. Gura is a good pitcher." ning.
Hal McRae doubled in the fifth
and Otis singled him in. Reliever
Charlie Hough walked in a run in
the seventh and Willie Aikens hit an RBI single in the ninth. Brett, batting 208 before the game, went 4-for-5. Twins 6, Red Sox 1 Gura had B one-hiner before giving up singles to Miekey Rivers and Al Oliver in the seventh. With cone out and men on first and third, Gura saved his shutout when Consolidated Trading In Boston, Minnesota's Roy Smalley drove in three runs with a single and a sacrifice fly and Sal Butera knocked in two with a dot-ble and a single 10 beat the Red Of NYSE Listings d May 2, 1981

BANQUE NATIONALE DE PARIS

The second secon

ions

344

Floating rate note issue of U.S. \$250 million January 1989/88.

rate of interest applicable for the three month period beginning 129, 1981, and set by the reference agent is 167, % annually.

Royals Defeat Rangers on Gura's 6- Hitter

Angels 8, Brewers 4

In Anaheim, Calif., Fred Lynn drove in five runs with a pair of homers and a bases-loaded walk and rookie Mike Witt survived a

Tigers 7, Mariners 3

In Seattle, Detroit slammed seven doubles in a 7-3 victory. Seattle's Mike Parrott registered his 18th consecutive loss, one short of the American League record set by Robert Groom of Washington in 1909 and nied by John Nabors of Philadelphia in 1916.

A's 8, Yankees 6

In Oakland, a bases-loaded sin-gle by Dave McKay highlighted a three-run sixth and Cliff Johnson hit a two-run homer in the seventh to offset a pair of homers by New York's Oscar Gamble, as the A's downed the Yankees, 8-6.

Expos 9, Dodgers 8

In the National League, in Mon-treal, the Expos took 13 innings to down Los Angeles, 9-8, with a tie-breaking homer by rookie outfielder Tim Raines, who also stole three

and a single and John Denny tra innings with a three-run rally in threw a seven-hitter in a 10-2 rout of Chicago.

Astros 5, Pirates 3

In Pittsburgh, Houston's Mike Ivie doubled in two runs with two out in the ninth for a 5-3 victory.

Cardinals 7, Reds 6

In St. Louis, a two-run double by Sixto Lezcano capped a four-run third that carried the Cardi-nals to a 7-6 victory over Cincin-nati. Bob Forsch gave up three hits in five innings and Bruce Sutter got the save. George Foster homered for the Reds.

Padres 4, Mets 2

In New York, Terry Kennedy singled in Ruppert Jones with the ue-breaking run in the sixth as San Diego beat the Mets, 4-2. Rusty Staub hit a two-run homer for

New York. Braves 2, Cubs 1

In Chicago, Gaylord Perry regis-tered his 191st major league victo-ry, allowing nioe hits and walking none as Atlanta edged the Cubs, 2-1, on only four hits.

MEMORANDUM FOR THE PRESIDENT

A Strategic Approach to Domestic Affairs in the 1980s. By Ben W. Heineman Jr. and Curtis A. Hessler. Random House : 404 pp. \$17.50.

Reviewed by Edward Cowan

THE intriguing question about this book is whether Random House would have published it if Jimmy Carter had won the election. The anthors, sub-Cabinet officials in the Carter administration, wrote the book before the election. They say they intended it to be useful to either a Democratic or a Republican president. The contents of the book, however -a detailed examination of the difficul-ties a president encounters in trying to make policy — seem inappropriate as s memo to a re-elected president who already has experienced the perils of policy-making. Ben W. Heineman Jr. served as ex-

ecutive assistant to Joseph A. Califano Jr., the secretary of health, education and welfare, and then as an assistant secretary. Curtis A. Hessler started as executive assistant to Treas-ury Secretary W. Michael Blumenthal, served as an associate director of the Office of Management and Budget, then returned to the Treasury as as-sistant secretary for economic policy. Both were Rhodes scholars, both are lawyers who clerked at the Supreme Court, both are in their 30s.

Wasted Opportunity

Their jobs made them part of an inner circle of senior policy planners, close enough to the center to be able to perceive the issues from the president's viewpoint. Drawing on their experience, they have written a book on how to be a more effective president in the domestic sphere (foreign policy is simply omitted) than Carter was. "In the end," they write in a postelection preface, "many who served dur-ing the Carter term felt a sense of sadness that a striking opportunity —
and an enormous amount of effort was somehow being wasted." The anthors conclude regretfully that "the domestic legacy of his term was confusion."

Their advice to a new president: Conduct a "strategic presidency." By that they mean several things, most important of which are a happy mar-riage of policy and politics and a four-year plan that the president sticks to consistently. The authors might have subtitled their book "How Jimmy Carter Blew It," but then they would have had to write more specifically and revealingly about the Carter ad-ministration. In a footnote, they say they don't do so for reasons of "confi-

dentiality."
The authors cite Carter's efforts to. stop inflation as an example of his failure to conduct a "strategic presidency." They write: "To have pursued a coherent; persuasive anti-inflation strategy, President Carter would have had to set aside the coalition that elected him and sustained his party and to have created from whole cloth a new political majority committed to undertaking grave sacrifices for re-mote benefits. The administration was unwilling, or unable; to mount that political effort because it was not willing to risk the costs, which were obvisubstantial." By the anthors standard, Reagan seems to be doing better. His politics - government is the problem, so the less the better -are well suited to budget cartting. Reagan seems to have the kind of

four-year strategy that the au-wish their president had had. His sistency in the face of political ris

mains to be tested.

This is a book of shrewd ins. into politics and government, but not a successful book. It is too: too repetitive, too cluttered with worth reading, so it is unfortu that much of it is unlikely to hole attention of most general readers.
anthors, contradicting the populalief that presidents have enorgiower, explain how powerless a gdent can find himself if he do learn quickly how to make the e-tive departments, the Cabinet even the White House staff wor him and not for their separate

There is an excellent critique news media, which the authors preoccupied with "conflict" "electoral politics" to the exclusi informing the public about issues. anthors perceptively describe the flict between campaign politics the constraints of governing. But plod on to a wearying survey of departments, the Cabinet officer Executive Office of the Prison the White House itself. The au evidently failed to understand t memorandum for the president only a writer's device to sell bnot a framework that had to be literally.

What is missing is the huma mension, the anecdotal detail would make the abstractions alive. There are two "cautio tales," one about Carter's econ policy, one about his failed atte to have Congress revise welfare pand adopt a national health-care But even this chapter lacks perso ties, glimpses of meetings, drama-logue. With misplaced modesty-authors do not identify their roles. They also fail to examine, purging of their own masters, iano and Blumenthal, in 1979. Inof capturing the emotion and pense of politics at the center, the thors have indeed produced an c long memorandum.

Edward Cowan is based in Wast ton, D.C., and covers economics for New York Times.

China to Start Paper In English Language

PEKING — The China Daily, first English-language newspaper Communist China, will be launch in June for the growing number foreign visitors, according to the C nese news agency. There were 5.7 m.

here news agency. In a lice visitors last year.

Prototypes of the eight-page par containing a mixture of domes. news translated from Chinese medand foreign news from Western age. cies, have been produced for the last few months. The paper also has advertisements, which newspaper officials say are intended to make the paper look more familiar to Western . readers as well as to earn revenue.

By Robert Byrne

CHESS_

COTHAR SCHMID discovered in this year's BBC International Tournament in London that it is harder to win a second time around. The West German grandmaster took first prize last year, but finished last

When he triumphed, his opponents took him too lightly, judging that he should have been state from infrequent play. Viktor Korchnoi, in particular, pressed too hard in a drawish position and lost. While it is true that Schmid has become better known for his refereeing of the world champion-ship matches in Reykjavik, Iceland, in 1972 between Bobby Fischer and Boris Spassky, and in Bagnio, Philippines, in 1978 between Anatoly Karpov and Korchnoi, he should not have been counted out as a player.

It is clear that in this year's tourney,

Schmid's opponents were determine Schmid's opponents were determined not to repeat the error of their prodecessors. Anthony Miles, Britain's leading grandmaster, gave Schmid no quarter but applied persistent positional pressure capped by incisive tactics to dash the West German's hopes. for a repeat performance.
Schmid's Neo-Gruenfeld Defense

illustrated the hypermodern strategy of restraint of the White center by pieces after 11 . . Q-B1, But instead of continuing with the standard 12 P-QR3, R-Q1; 13 P-K3, Miles tried 12 N-K3!7, B-K5; 13 N-K5!? After 13 . . BxB; 14 KxB, it would not have been satisfactory to play 14 have been satisfactory to play 14.

NxN; 15 PxN, N-Q2; 16 N-Q5,
Q-Q1; 17 RxP, NxP (17.

P-K37;
18 RxN, QxR; 19 N-B6ch costs the queen); 18 NxPch, winning a pawn.
However, in this line, 15.

R-Q1;
16 Q-B2, N-Q4 could perhaps have held up.

held up.
After 14 ... N-QN5; 15 P-QR3,
N/5-Q4; 16 NxN, NxN; 17 P-K4,
Schmid had succeeded in exchanging scrimin had succeeded in exchanging two pairs of minor pieces, but Miles obtained a strong center. Here, 17.

BRN7; 18 PRB, N-N3; 19 Q-Q44,
R-Q1; 20 Q-B5, Q-K3; 21 QxBP,
QxNP; 22 B-R1, N-R5; 23 QxKP

QxNP; 22 B-R1, N-R5; 23 QxKP gives White a pawn.
On 26 Q-K3, Miles' threat of 27 P-Q5! followed by 28 B-N6 might have been met by 26. B-Bi allowing the cramped Black position to remain solid. Schmid's 26. P-N3 loosened his queenside pawns.
Miles' 29 R-Q3, 30 R/1-Q1 and 31 Q-B3 heralded a breakthrough with P-Q5, which Schmid should have passively resisted by 31. R-Q2. Instead, he resurted to 31. P-KB47, breaking up the White center pawns after 32 PxP, KPxP, but allowing Miles to take over the king file with 33.

Miles to take over the king file with 33

R-K31

Position after 41 . . . Q-B2

It would not have worked to brace against the coming R-K7 by 33.

R-Q2, since 34 R/1-K1, N-B3; 35 N-Q6, Q-B2; 36 R-K6, R/1-Q1; 37 NxP1, PxN; 38 RxP, Q-N2; 39 QxBPch, K-N1; 40 RxN, BxR; 41 QxB, threatening both 42 B-K7 and 42 R-K5, yields White a winning attack. In this line, 36. N-Q4 would be smashed by 37 RxP!, PxR; 38 QxBPch, K-R3; 39 B-B1ch.

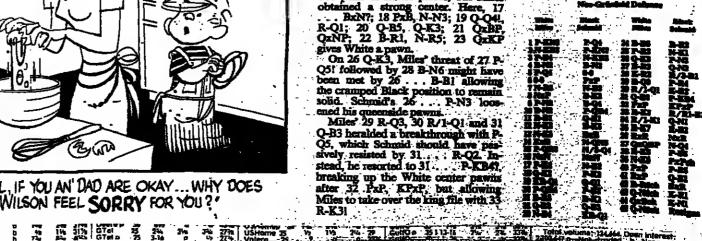

On 35 RxP?; 36 B-N2, R-Q4; 37 B-K5!, RxB; 38 R/1xR, winning the exchange.

hange.
Miles bore in powerfully with the

Miles bore in powerfully with the attack, crushing all resistance with the deadly 42 R-Récht (42 ... K-N1; 43 Q-Kéch, K-B1; 44 N-Némate). After 42 ... BxR; 43 Q-Néch, K-R1; 44 QxBch, defense by 44 ... Q-R2 costs a rock to 45 N-B7ch.

After 45 Q-N5ch!, Schmid would have lost a rock by 45 ... K-R1; 46 QxRch! or a queen by 45 ... K-R2; 46 Q-Néch, K-R1; 47 N-B7ch. Thus, he save nn.

he gave up.

Campo's Pleasant Colony Captures Kentucky Derby

Proud Appeal and Cure the Blues Are Far Behind

By James Tuite New York Times Service

LOUISVILLE, Ky. — Johnny Campo said for weeks that Plens-ant Colony would win the Kentucky Derhy, and racing people scoffed. The trainer buttonholed passersby at racetracks, and they shrugged him off. But at 5:43 p.m. local time Saturday, Pleasant Col-ony turned it on at the head of the stretch and swept to a three-quarter length victory in the 107th running of America's premier thoroughbred race.

Campo screamed with joy as he watched lorge Velasquez guide Pleasant Colony under the wire ahead of two long shots, Woodchopper and Partez, in a field increased to 21 by court order on

"I told you so! I told every-body!" yelled Campo, the self-pro-claimed Fat Man. Those in the crowd of 139.195 who believed him laughed all the way to the cashier's windows to collect their \$9 for each \$2 bet.

Those among the second-biggest Derby crowd who bet the favorite, Proud Appeal, saw him finish 18th. Cure the Blues, another favorite, ran 15th. The big surprise was the fast-closing second-place finish of Woodchopper, at 34-1, as Partez, a mutuel field horse, got third, three more lengths back.

The winner's time of 2:02 for the mile and a quarter was two and three-fifths seconds off the Churchill Downs track record of Secretariat even though the first two quarters were raced in record Derby clockings of 0:21 4-5 and 0:45 1-5. The early pace helped to

finish off Top Avenger, Proud Appeal and Bold Ego.

The mad charge from the starting gate was woo by Top Avenger, who remained in front for the first half-mile before yielding to Proud Appeal. Then Jeffrey Fell was unable to keep Proud Appeal on top.
"When I called on him to run, he didn't respond," Fell said, and Proud Appeal yielded to Bold Ego three-quarters of a mile from

Pleasant Colony, who had start-ed from post 17, continued to improve his position until he was just off the pace, but on the rail, turning for home. Then, with a burst of speed. Velasquez moved his colt to the center of the track, flicked his whip a couple of times, and rolled

Piquet Drives His Brabham to Victory

trouble than did the crowded field. but some other riders did not share his opinion.

Eddie Delahoussaye, aboard Woodehopper, said, There were too many horses in front of me and I couldn't get out when I wanted. I really didn't get to shake him loose and get to riding him until about the eighth pole."
Bill Shoemaker, oearing the age

of 50 and riding in his 21st Derby, said Cure the Blues "got humped on the clubhouse turn, but if he'd been running, it wouldn't have happened. He was tired at the half-

Julio Espinosa, who rode Golden Derby, an entrymate of Proud Appeal, to a last-place finish, said he had to check his horse going into the first turn "because four horses came over. I had to jerk him back and after that he didn't have

Reuben Hernandez, one of the leading stakes-winning riders in New York, complained also that his colt, Tap Shoes, "got a good bump coming out of the gate" be-fore finishing 14th.

On Friday, a county court judge decided that the application of a rule limiting the Kentucky Derby field to 20 was discriminatory, and Churchill Downs immediately re-stored two colts that had been dropped because of their earnings.

The judge, Charles Leibson of Jefferson County Circuit Court, said that the track stewards had erred in their interpretation of a section of the rule. In referring to this section, Leibson said: "In no case may two horses having common ties start in a race to the exclusion of another single entry."

Two entries of two horses each were already in the field, and three of 23 horses had been eliminated because of the career-earnings criterion that is invoked when more than 20 seek a place in the Derby.

The confusioo resulting from Friday's court decision led the track to cancel advance betting on the race and to discard 50,000 program inserts already printed.

State Senator's Role

After Leibson ruled in favor of Flying Nashua, the track asked the State Court of Appeals to overturn the verdict. While the appeals hearing was being conducted in the afternoon, it became known that Mythical Ruler's owners had to his first Derby victory.

Fell said that Proud Appeal's reluctance to run gave him more

Another horse that had been eliminated, Law Mc, was already off the grounds, and a filly that had been entered in the race, Wayward Lass, withdrew after drawing post No. 20 and ran instead in Friday's Kentucky Oaks.

Flying Nashua's 21-year-old trainer, Larry Barrera, and the colt's owner, Dr. Ulf Jansen, in refusing to accept exclusion from the Derby, had asked for help from another owner for whom Barrera trains, State Sen. Lowell Hughes.

They found a Churchill Downs rule that said: "In no case may two horses having common ties through ownership start in a race to the exclusion of a single interest." The rule was then pointed out to Lynn Stone, the track's president. Having conferred with his stewards. Stone said that the rule applied only to purse races and not stakes races. But the judge, in Friday's ruling, said that this was a

The Celtics jump for joy as time runs out in their 100-98 victory over the 76ers while a dejected Julius Erving leaves the court.

NFL Drafters Stun Some College Egos By William N. Wallace

New York Times Service NEW YORK -- As always, there were players in the National Football League's draft this year who were oot chosen as high as they had been led to expect. The hours of reality came last Tuesday and Wednesday when the scouting de-partments of the 28 teams, equipped with information that cost about \$10 million to compile,

delivered their opinions. These were a shock to collegiate All-Americans John Scully of Notre Dame, Louis Onbre from Oklahoma and Hosea Taylor of Houston. These three expected to be drafted in the first round, or

certainly high in the second.

But Scully was picked in the fourth round by Atlanta and was the fifth center drafted. New Orleans took Oubre, an offensive tackle, in the fifth round. Baltimore took Taylor, a defensive tackle, on the second day, in the eighth round. Each player lost heavily in salary and signing bonuses, not to mention the pain to his ego. What happened?

NFL personnel directors say Scully, who is 6 feet 5 inches and weighs 250 pounds, was faulted for lack of strength in the upper body, as determined by scouts from

Notre Dame

ers were drafted and all but Scully after the sixth round. Last year there were five. In terms of NFL potential, the Notre Dame athlete is often suspect. "I think what we question," a personnel director said. "is their intensity their de-

sire. Maybe they're just too smart around a lot, nor did he physically intimidate anybody." Dick Steinberg, personnel direc-tor of the New England Patriots,

had a lot of outside interests, like playing the piano. Maybe that worked against him. As a center he had good techniques within a given area. But he didn't move

In WCT Finale The Associated Press DALLAS - John McEnroe was

a runaway favorite Sunday to cap-ture his second World Championship of Tennis title. The victim was expected to be Johan Kriek. But the 23-year-old Kriek, son

year-old McEnroe, gave the world's No. 2 rated player a good match last year before losing, 6-4, 4-6, 7-6, 6-3.

victory over Brian Gottfried.

Tournament of Champions

HAINES CTTY, Fla. (UPI) nament winners

In the case of Taylor, another personnel director said, "Hosea had to be listening to the agents telling him how good he was. He stopped working. A Lot of Work

One team had Taylor ranked as the nation's No. 1 defensive tackle after spring practice a year ago, yet be was the 219th player drafted out of 332, and statistics show that only one in five of those chosen after the fifth round win pro jobs. "I don't think I've ever seen one player tumble so far," said personnel director Jim Parmer of the Chicago Bears. "It probably cost him \$100,000."

Ouhre, 6-foot-4 and 265, was regarded as overweight. "He does have high intelligence and quick feet," said a personnel director. "So he's a prospect. But be's going to have to do an awful lot of work, especially with weights to build his strength. Will he do it? Who knows?"

Psychological factors affect the drafting process. Recalling that round after round went by without Taylor being picked, Tom Braatz of the Miami Falcons said; "It was a mystery why he had not been taken. Teams begin to think, There must be something wrong we don't know about,' and they stay away."

An Atlanta official took a different view of Scully's case: "The pro teams have an awful lot of time to evaluate players, from the end of the season to the end of April Most send coaches out to the campuses in the winter to work out the players individually. Scully had graduated last December and he wasn't around South Bend."

Tuesday at Madison Square Gardea. Only two teams, the 1975 Islanders and the 1942-43 Toronto, Maple Leafs, have overcome 3-0 deficits in the National Hockey The Islanders established a 2-0

lead in the first period, and the Rangers were never close to controlling the game.

The best-of-seven series resumes

Bossy scored at 14:36 of the opening period, when his backhanded pass in the slot hit Ranger defenseman Carol Vadnais and changed direction, glancing behind goalie Steve Baker. Bourne scored at 18:33, back-handing the rebound of a point shot hy Mike

McEwen.

Wallin Speils Shutout In the second period, during which the Rangers were outshot, 17-4, Ken Morrow pot the islanders ahead 3-0 at 15:3t with a 50 footer over Baker's suck side shoulder after Nystrom set him up at the right point. Nystrom then took a pass from Wayne Merrick and beat Baker with five seconds

Peter Wallin spoiled Billy Smith's shutout bid at 5:13 of the third period, lifting a 20-footer behind Smith after an assist from

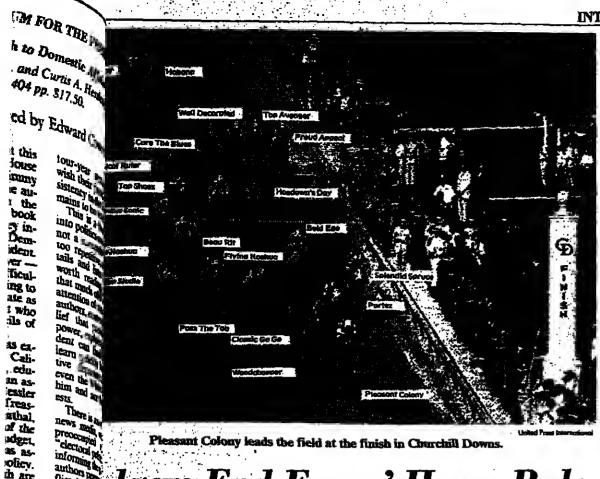

nal goal at 14:54 of the third peri-od, assisted by John Tonelli and

nf a South African sugar plantation owner, has a big serve-andvolley game - the kind that gave McEnroe trouble here last year. Kriek, who is 1-5 against the 22-

Kriek whistled 21 aces by the king of ace, Roscoe Tanner, Friday night in the semifinals. Tanner lost in a marathon five-setter, 7-6, 6-3. 4-6, 0-6, 6-4, although he served 20 aces himself. McEnroe waltzed into the final with a 6-3, 6-4, 6-1

Martina Navratilova used ber power and superior net game Saturday to defeat Andrea Jacger, 7-5, 6-3, and claim her second straight title in the Tournament of Champions, an event reserved for tour-

Behind the Stick

By William Safire NEW YORK — The person dispensing drinks from behind a har is called a barreoder.

Customers who are fond of the arebaic call him barkeep or innkeeper (A clumsy barteoder is called a shoemaker, one quick and capable is a mechanic.) A woman nding bar is a barmaid, and there is relatively little pressure for

beverage attend-ant ("On what sneers one harmaid) or barpersoo. Bartendress is silly; waitroo has been a oeuier-gender suggestioo. hate being

called a barmaid," observes J. Fialla Gamsu of Waterhole 3. Saranac Lake, N.Y. "How can one as ravaged hy time and demands for drinks as I be called a maid any longer? I prefer to be summoned by the subtle nonverbal communication of eye contact, the looely tinkle of cubes, the eloquent gesture of the empty glass, the searching look as hand goes to pocket .

Other female hartenders have different tastes. "I have had people watch me pour drinks for five minutes and then ask me, 'Excuse me, are you the bartender?" writes Betsy Kates of White Plains, N.Y. 'My name is oot waitress, sweetie, honey, cutie, a whistle, or a snap, You can call me miss, excuse me, barteoder, when you have a chance (five of the sweetest words a customer could speak) or even young lady, or, sure, barmaid is acceptable. But I paid my dues to make it this far in the ranks: Let me be addressed accordingly. Or best of all, you could ask me my name and I'll be glad to tell you."

A bartender works behind the wood, behind the mahogany, or behind the stick, the last referring to "the beer-tap lever used to draw draught beer," according to Alan Cutlin of Scheoectady, N.Y., who calls himself a professional barperson. He adds that the phrase is metaphoric: "Wherever you work, you are behind the stick," whether there is one or not,'

"Mixers are women hired strictly to make money for the house. says one correspondent, "by drinking with the men. They're some-

times called hostesses." A New York Times colleague Don Meik-lejohn, formerly State Beverage Director of Florida, reports this information about spin cups: "A mixer sits with a customer and orders expensive champagne with a water chaser. The chaser arrives in a metal cup. A sip of champagne is seemingly followed by a sip of waier. Actually the mixer, or stripper, is just spitting the champagne into the spit cup, or transfer glass. The tah soars and the stripper remains

The spit cup must oever be confused with the cup, which is the hartender's tip cootainer, also called the up jar, a rocks glass often placed cear the cash register.
According to Jack Murphy of New
Paltz, N.Y., "Put this in your cup"
is said by with-it customers.

One bartender adds these terms familiar mainly to those who work in bars. "A call drink is any drink where the customer names the liquor by brand name; a well drink s any drink using the liquor of the house. What do you have in the well? means, What house liquor do you carry?

A sleeper is any money larger

than the average tip left on the bar, which bartenders aren't sure is a tip or will be reclaimed, but who put it on the back bar (oot in the tip jar) until closing.

A twist is, of course, a twist of lemon skin, but if you want a piece of lime, ask for a squeeze, which is more than you'll get from a mixer. * * *

Although "stiff" is still used to mean a state of drunkenness (from the resemblance to a corpse rigid with rigor mortis), the word is more frequently used to describe one who refused to tip. Such deadbeats are also shafties, diviners, short strokes, skels, (from 'skeleton") and AOH (a corruption of "out of here").

Terms for "drunken" are too mentionable to enumerate, but the latest include wrecked and totaled (from a car wreck that results in the total loss of the vehicle). Power drinkers, as heavy drinkers are now called, get hammered, bulletproofed, buzzed, laid out, polluted, off nicely and faced (a euphemism for a scatological epithet). Giffed is a new locution, taken from TGIF (Thank God It's Friday). When someone is stretched, or has passed out, he is referred to as

tired or watching the ant races. New York Times Service

Susan and Success

'I've Been Lucky Enough to Play Just About Every Stereotype There Is'

By Christian Williams Washington Post Service TASHINGTON - Now that

Susan Sarandoo's career has again borne fruit, everybody wants to know about the lemons. "Not very practical," she said, making a slight face. "Sticky, yes, and they leave a tingling, burning

Sarandoo is 32 years old, and in "Atlantic City," which opened in Europe last year and reached the United States this spring, she is introduced at her kitchen sink, carefully cutting up lemons and smearing their juice all over her upper torso. Burt Lancaster is a voyeur at a oeighborly window. They become friends, and the movie takes off from there.

She learned about acting at Catholic University drama school, through which she worked her way as a switchboard operator, an art gallery attendant and a seasonal post office worker, and where she met and married actor Chris Sarandon. They had both wanted to be actors and stars, and oow they both are. They are also divorced.

Skinny No More

Persons who remember her from the old CU days use the words "skinny" and "ambinious," but the skinny part is over and dooe with. As for ambition well, she quickly landed the role of Peter Boyle's frizzy and doomed daughter in "Joe" of 1970. After that, she was Janet in "The Rocky Horror Show" and Katherine in "The Other Side of Midnight"; she has appeared in "King of the Gypsies," "Last of the Cowboys" and "The Great Waldo Pepper," in which she fell to her death from an airplane wing in a romantic and glamorous way.

She was memorably sexy in Louis Malle's "Pretty Baby," memorably ocurotic in the soap opera "A World Apart," and memorably televised in "The Last of the Belles," a network evocation of the early days of F. Scott Fitzgerald, Her most recent film is "Loving Couples," in which she portrays 25 percent of a menage a quatre.

"I've been lucky enough to

play just about every stereotype there is," she commeoted, revealing either a subtle sense of humor or hiting sarcasm or possibly just

"Atlantic City" was also di-rected by Louis Malle, and the gossip is or was that she and Malle are or were friends. In anwer to the semi-direct question, "What can you tell us about you and Louis Malle?" she replied, "Nothing personal." This was taken as a hint to get oo with other matters, such as what she can tell us about Lancaster, who is 67 and star of the picture.

a blissful innocence.

"Well, he was pretty patient for such an established actor," said, "He has a real sense of what works in froot of the cam-era. After the first day, when he realized that I knew what I was doing, things went smoothly. Sure, we became friends. But I doo'l know that he was accessible to become a close friend with, really.

cal reasoo for them in the plot. It is also oo accident that the old resort town was being torn down around them during filming.

As far as the lemons go, Saran-don said, there is a perfectly logi-

passage, and Atlantic City was going through its rite of passage, too. Gamhling was coming in, and the trade-off between prosperity and posterity was obvious. Some of the nice old places where we shot, when you came back the next day they were just gone. Demolished. The wonderful log cabin on the beach where the seduction scene takes place was destroyed right after we fin-ished with it. This was two years ago, of course.

— The state of the state of

Now that Susan Sarandon has made it in her chosen field, she is of course in control of her future.

"No I'm not," she said. "The movie business isn't like that, especially at this time. There are only probably six actors in control of their careers, and they're certainly all men. Projects are continually talked up, and then put oo hold these days."

Sarandon's next movie will be an adaptation by Paul Mazursky of Shakespeare's "The Tempest," which will also feature John Cassavetes, Gena Rowlands and Raul Julia. After that, she's sup-posed to film the play "A Coupla White Chicks Sitting Around Talking," directed by Jack Lem-

John McDonnell, The Washington Pour Susan Sarandon

CLASSIFIED ADVERTISEMENTS

mon and with Jill Clayburgh as-

Sarandon was in "White Chicks" off-Broadway, and like many movie actors she is at no. loss to describe the difference between stage and screen. "It's the difference between making love to yourself and making love to someone else," she exclained. "Movies don't provide any in-stant gratification at all. Making them is very slow, and there's a lot of waiting around. But on a stage it's overwhelming. You and the audience become completely involved, laughing and crying to-gether, and if when it's over they applaud, there's no way to avoid believing that you contributed to it. You say to yourself, 'Hey, I have to be responsible for at least 50 percent of this! In a movie, you never know what makes a

"The funny thing is, before I did White Chicks on stage I never took my own contribution really seriously. There didn't seem to be any real reason to. But 'White Chicks' proved to me that I was good."

So did the Canadian Cinema Genie Award she received as best foreign actress for "Atlantic City." "It's my first award," she City." "It's my first award," she said. "There's nothing like an award to make your humility go out the window.

Formed Own Troume

Humility, when shut up in the hothouse of the soul, often turns to envy and bitterness, and there is no reason for Susan Sarandon to risk that. She is quite lovely, with an upturned nose and a slightly tentative chin that gives her face a character of inquisitiveness not found in more porcelain beauty. Her eyes are orbicular. This is not praise but clinical description.

She is the first-born of nine children of a New York stockbroker, and she grew up in Metuchen, a New Jersey suburb among suburbs, and now, frankly, she is rolling in dough and has taken the time to form her own improvisational troupe.

"We call our group "The Group," " she explained, more or less agreeing that things are going well for her. "Peter Boyle is in it, and Richard Dreyfuss, and Tom Noonan and Brooke Adams and a bunch of others. There's no audience, just us. The funny thing about being well-known is that you don't dare change. So this is a place to stretch yourself, to take risks,"

Charles Heads Home After Reagan Dinner

Britain's Prince Charles left for home Sunday morning after at-tending a dinner Saturday night at the White House with President

Reagan, Nancy Reagan and celebrities including Cary Grant, Andrey Hepburn singer Bobby Short, composer Samury Cahn, designer James Galanos and columnist Williams. Backley Jr. As the prince's important columnist with the White

limousine entered the White

House grounds, about 50 demon-

strators outside the gate chanted

and held signs in support of Bobby Sands; the Irish Republican Army hunger striker. Earlier Saturday,

Prince Charles, calling himself a "genuine redcoat," was honored in Williamsburg, the onetime colonial capital of Virginia. After being

made a fellow of the College of William and Mary, the prince said

that Queen Mary wept for two days when she learned that she was

to wed a man 12 years her senior.

tween myself and Lady Diana, but there, ladies and gentlemen, the

comparison comes to an abrupt end," be said. The prince arrived in Washington on Thursday at the close of a world tour.

When they met, Li Cunxia was the prince in "Swan Lake." When Elizabeth Mackey first spoke, he blushed, not understanding what

she said. As an exchange student

from China, he was determined to

devote all his attention to studying

dance under Ben Stevenson, artis-

tic director of the Houston Ballet.

"I worked very hard," said Li. "I had no time for girls." But Miss

Mackey, 18, a dance student from Florida, was different. Last Mon-

day before a county judge in Hous-

ton, they were married, setting off what could have been an unpleas-

ant incident: Li was detained by

Chinese officials for 21 hours. The

wedding took place two days be-

fore Li, 20, was to leave for Peking.

having completed his 18-month apprenticeship with the Houston company. On Tuesday night, he

went with his new wife and a few

friends to the Chinese Consulate

to say that he wanted to stay in the

United States. The dialogue began

in English but soon bogged down. It was decided, Li said, that if Chi-

nese was to be spoken, it should be

in private. The others did not see

him again for almost a day. Li said

that for 21 hours Chinese officials

took turns talking to him about his

decision but that they did not try

to change his mind. After he had been asked one last time if he un-

derstood what he wanted to do, he

was released and told that Peking

would not oppose his desire. Li
